

**ASK FOR THESE BOOKS AT THE LIBRARY**

"Roots of America," a travelogue of American personalities, by Charles M. Wilson promises to be an outstanding book among all the "travel" books. Beautifully illustrated, this volume offers a series of factual types and trades which the writer believes basic to our land. The people about whom this volume is written are unknown beyond the limits of their home communities or beyond the folds or motivations of their respective trades. Speaking generally

they are plain men, most of them poor men, yet most of them are comparatively happy men who love their work and who find incentive and consolation in fulfillment of basic and enduring appetites for composition, chattel belongings, for possession of land and homes.

These Americans are diverse of location. They are scattered from Vermont to California, Pennsylvania to New Mexico, and all are alive and working today.

"I like these Americans, the land, the work, and the belief of which they are a part. I am proud to know such men, to revel in their friendship. I believe this is a great and beautiful nation whose greatness and beauty are as yet faintly known.

I am grateful for the chance to write of this land and these men."

This book is a great contrast to most of the modern writing on America and Americans, and it is most highly recommended for thoughtful readers who desire to know Americans as they really are, one critic writes. This is a story of the people Lincoln loved. Theodore Roosevelt would have read this book with great gusto and bought it in dozen lots to send to his friends.

"Mexican Interlude," by J. H. Jackson deals zestfully and delightfully with a theme that could be fairly commonplace, the chronicle of an automobile trip to Mexico. Mr. and Mrs. Jackson were having a good time and far more eager to see what

they themselves found interesting than to follow in the footsteps of other tourists. In consequence they saw uncounted fascinating things unknown to the average traveler in Mexico; the human thing, always the different thing, beauty and strangeness. They followed the new American highway, took rooms with a cultivated Mexican family in the capital, saw many sights, met many people and really lived their Mexican Interlude.

"Sycamore Shores," by Clark B. Firestone, brings both novelty and charm. "Behind the walls of the Appalachians the life of the old West moved along rivers when there were no roads save buffalo tracks, Indian trails, and

the bland path of the pioneer. A light canoe will carry a considerable burden and in a single day cover a distance that was a week's journey overland. The procession of time that moved along the river shores shows around builder, Indian, fur trader, hunter, voyageur, priest, soldier, settler, brings to view hardy generations of boatmen and steamboatmen, children of commerce and folk of fashion. The first store in the old West was a flatboat, the first theatre a showboat. This is a fascinating account of trips down or along these old travelled waterways, the Illinois, Wabash, Ohio, Cumberland, Salt, Muskegum and Mississippi rivers. There are

still packet boats, still showboats. River life has continued for rivers are eternal things."

"Stars Fell On Alabama." This is an extraordinary book of fascinating reading about Alabama which is a state that combines the gentle traditions of Southern hospitality, the crudities of the back mountain districts, the primitiveness of the jungle negro and ruthlessness of the Ku Klux Klan. Duels, lynching, voodoo exist side by side with proud traditions of descendants of Spanish conquistadors, gay creoles and of Scotch and French settlers. Title comes from a superstition general throuout the country that Alabama felt a magic descend-

ing upon it long ago and since then has been a land with a spell upon it, not always a good spell. All are sure that once upon a time "stars fell on Alabama" changing the land's destiny and the region has existed ever since real and fated, bound by a horoscope such as controls no other country.

**State Picnics**

**ILLINOIS**  
The Illinoisans of all Southern California are invited to their picnic reunion, all day, Saturday, Oct. 17, in Sycamore Grove park, Los Angeles.

ing upon it long ago and since then has been a land with a spell upon it, not always a good spell. All are sure that once upon a time "stars fell on Alabama" changing the land's destiny and the region has existed ever since real and fated, bound by a horoscope such as controls no other country.

**A. L. A. MEETING NIGHT CHANGED**

At the meeting of Bert S. Crossland Unit 170, American Legion Auxiliary, Tuesday evening, it was decided to change the meeting nights from the first and third Tuesday to the second and fourth.

Members of the Legion invited the ladies to be their guests at a meeting to be held in the Legion hall, Tuesday, Nov. 3.

Friday, Oct. 16, is the date of the Legion Auxiliary annual school of instruction for officers and chairmen of the southern part of the state. Schools will be in charge of department officers and chairmen and will be held in the Patriotic hall, Figueroa street, Los Angeles. Open at 10 a. m.
