COOKING SCHOOL OPENS TOMORROW: 1 P. M.

CITY OFFICERS ARE GUESTS AT HEALTH CENTER

Clinical Work For Local Children Explained To City Dads

Work that the county health department is doing thru the medium of the Torrance health center was explained in detail to members of the city council and other officials Monday morning when the group was escorted thru the building and guided by George Isaacs, sanitary officer here.

Those who made the tour were Mayor W. H. Stanger, Councilmen W. H. Tolson and Tom McGuire, City Clerk A. H. Bartlett, Assistant City Engineer Leonard J. Young, Judge Robert F. Lessing, Fire Chief A. D. Stevenson, Captain John Stroh and Auditor C. J. Rambo.

Children's Clinics
Interest in the tour centered in the section where the health clinics are held. From the dental clinic, presided over by Dr. Lillian Van Woert, came sounds of woe from a little patient who, like many of those more mature in years, was more scared than hurt. Dr. Van Woert is on duty every morning and also inspects the teeth of infants brought in to the baby clinic on the second and fourth Thursday each month. In her own offices she takes care of the teeth of youngsters, and every three months gives all of her patients a recheck to see what additional work if any is required. On these recheck days, as many as 75 children visit the clinic. Most of them do not require more than an inspection. Friday of each week is the day for making appointments for dental work.

Care of Infants
On the second and fourth Thursday each month the baby clinic is held when infants may be brought in for checking. Dr. Adele Eller, who has specialized in the care of infants over a period of 20 years, is in charge, with two of the health center nurses as assistants. Babies are weighed, measured, and mothers are given advice on their care and feeding, and if they are ill a diagnosis is made and the proper treatment outlined.

Assistants, who take turns at the work, are supplied from the regular staff which includes Phalone Alkin, supervisor of nurses; June Mason, Alzada Mott, Ida Wood and Medora Conrad.

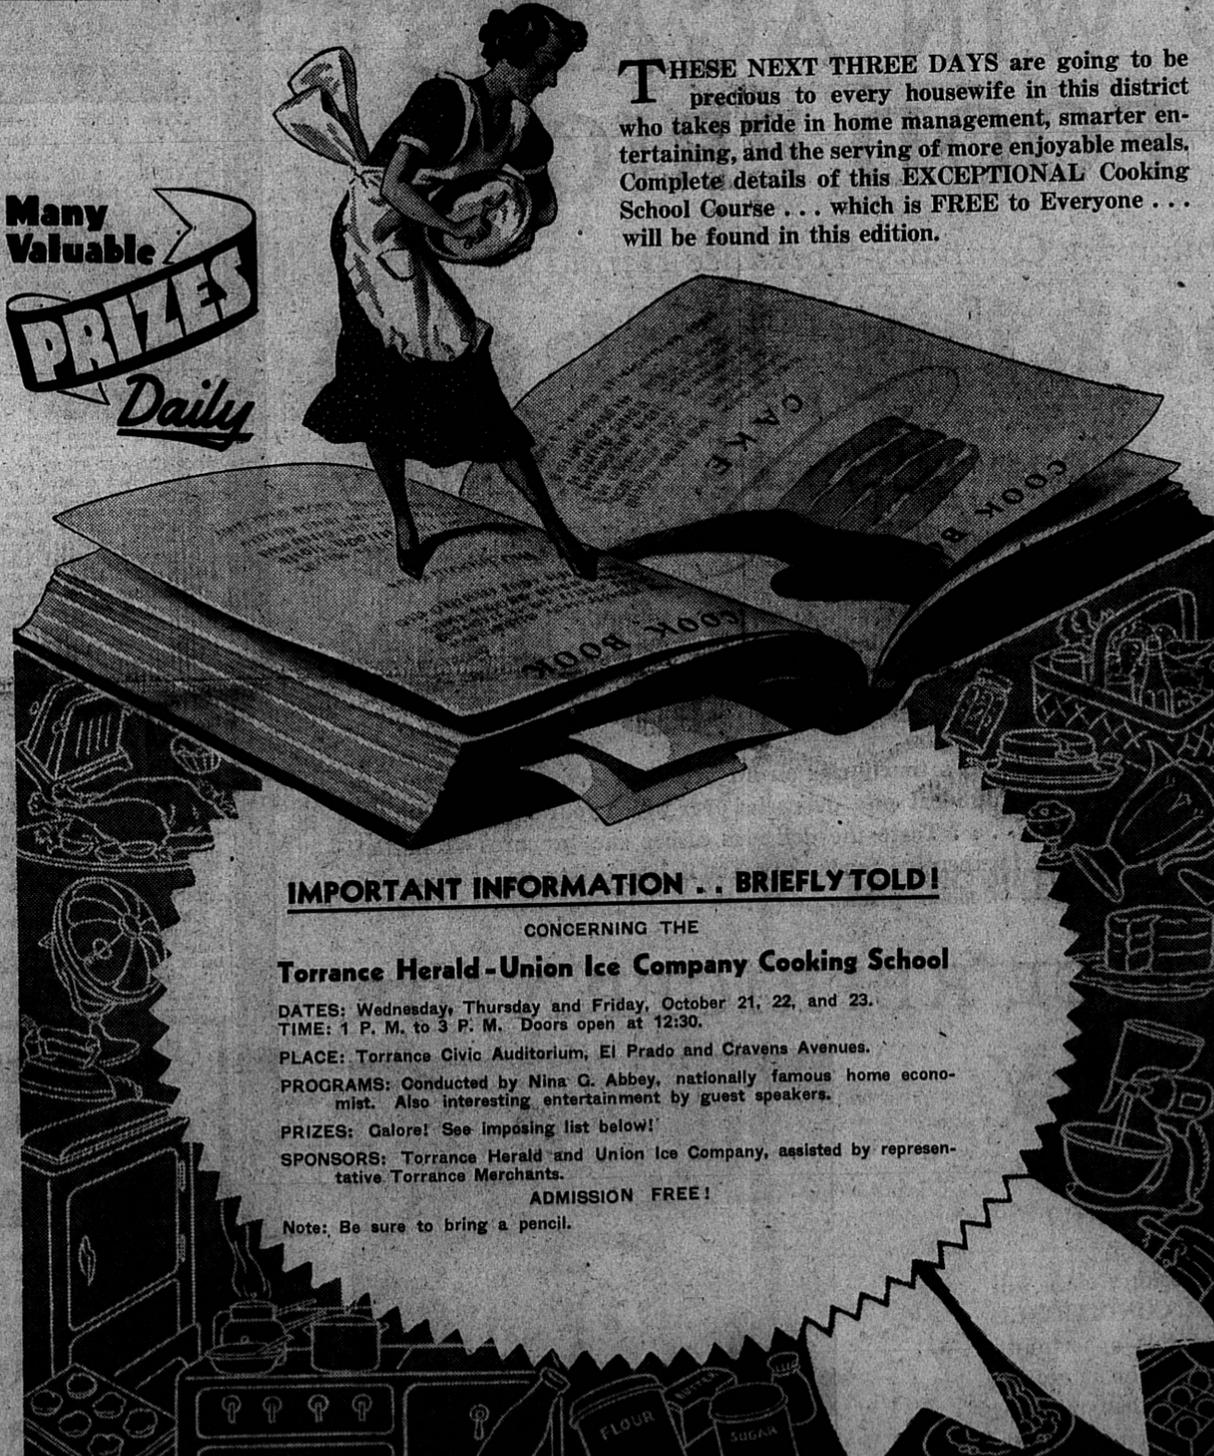

Funds Are Lacking
Quarters were set aside for children's physiotherapy, where exercises were given for the correction of defects in posture and weaknesses due to the effects of illness. For six months this department was in operation, and a number of children who had been victims of infantile paralysis were treated.

However, the county board of supervisors last year struck out of the budget the item proposed to cover the expenses of the work and it was abandoned. Likewise, the funds for the work in oral hygiene were cut from the budget and this branch of the service was discontinued.

Mayor Stanger asked the members of his council to keep in mind the need for continuing these two departments, which were of great importance in the health of children, as he wished to have the city council of Torrance protest the elimination of the funds and urge that these items be included in the next county financial set-up.

No Watered Milk
From the quarters provided for children's work, now sadly neglected, the party entered the laboratory, where all tests are

CONTINUES THURS.-FRI.

Read All About These Exceptional Programs

Tomorrow is the day of days that local housewives have been anxiously awaiting, as it marks the opening of the year's most popular show in modern cookery, conducted by the vivacious and talented Nina G. Abbey, nationally famous home economist.

Promptly at 1 o'clock tomorrow (Wednesday) and also at the same hour on Thursday and Friday at the Torrance civic auditorium, the sessions will begin and there will be plenty to see and hear during the short two hours each day. Mrs. Abbey does not believe in long sessions and promises to dismiss the school each day promptly at 3 p. m.

Peppy Programs

It will be a fascinating adventure into the fields of modern cookery embellished with new ideas which will add to the lure of the family table. Each day's program will bring fresh inspiration to women who have not had time to delve into the necessary research which frees modern cookery from much old-time "drudgery."

Many New Ideas

Complete family and guest dinners will be cooked automatically with clock-like precision—"clock-like" because the cooking actually will be regulated by a clock attachment on a brand new 1935 model O'Keefe and Merritt gas range.

Dainty salads will be prepared on the stage from vegetables and fruits preserved for the purpose in one of the ultra modern ice refrigerators which on the final day of the school will be given away as one of the many valuable prizes. Many new innovations in ice refrigeration will be demonstrated to those in attendance by Mrs. Abbey, who is the home economist for the Union Ice Company, joint sponsors of the school with the Torrance Herald.

Practical Menus

This will be no exposition of tricky party dishes, the kind you serve to company only, but there will be demonstrations of the proper methods of cooking roasts, steaks, pies, cakes, the preparation of salads, new breakfast dishes, hints on entertaining and suggestions to help make cooking more fun so that housewives may have a happier kitchen.

Guest Speakers

These meetings will be a real round table of woman-to-woman gossip and housewives whose cooking routine is spoiled by the jingle of the telephone, the ringing of the door bell or the intrusion of members of the household, will find a remarkable example in the ingenuity of Mrs. Abbey.

A number of guest speakers and entertainers will be present to add novelty to the programs.

Prizes Galore

Oh yes,—there will be door prizes,—and plenty of them. In fact even as we go to press the prize list is constantly being augmented by alert local merchants who are anxious to have a part in this outstanding cooking school of the year. A partial list of the prizes is printed elsewhere on this page, but it is by no means complete. Only by attending each day's program will you be able to know of the many grand gifts that are to be awarded.

Remember, tomorrow is the day, at 1 p. m. Doors of the civic auditorium will be open at 12:30. Admission is free and everyone is invited.

Two Women Hurt In Auto Crash

Mrs. Charlotte Holmes, 1568 West 20th street, Los Angeles, was treated at the Jared Sidney Torrance Memorial hospital for a broken hand, and Mrs. Bertha M. Herbert, 9811 So. Budlong, for a leg injury and bruised cheekbone, following an automobile collision at 182d street and Western avenue. The cars were driven by George A. Holmes and George Herbert, the latter driving for Manual Villa, registered owner, 130 W. 98th street. Villa was taken into custody on a charge of being drunk in an automobile.

Free Show and Dance Thursday

A six-act vaudeville show followed by a dance, both of which will be free to the public, will be given at the Torrance civic auditorium on Thursday, Oct. 22, at 8:15 p. m. It was announced by Thomas Wilkes, dictator of the Loyal Order of Moose, Lodge No. 785, of Torrance, sponsors of the evening's entertainment.

The show will consist of six exceptionally fine acts of vaudeville presented by professional artists associated with the W. P. A. Theatrical Project. Music for the dance will be furnished by a 22-piece W. P. A. orchestra under the direction of Ted Sherman. The public is cordially invited to come and enjoy a good evening's entertainment, all of which is furnished without charge of any kind, Mr. Wilkes states.

DESSERT BRIDGE

Ladies of St. Andrew's Episcopal church will hold a dessert bridge party in their guild hall, Thursday at 1:30 p. m. Prizes for high scores in bridge and 500. Secure tables from members or at the door.
