Gramercy Apartments and Stores

Open This Week: New Thruout

Isen Building Offers Most Modern Living Quarters In Torrance With Stores and Offices on Ground Floor

Gramercy Building Is Torrance's Newest

Spick and span and ready for occupancy this week are the Gramercy apartments and stores at the corner of Cabrillo and Gramercy avenues.

Everything New
Every stick of wood, every wall and ceiling, every inch of the building has been re-decorated. New, thick carpet lines all the halls and covers the apartment floors. Costly Graybar electric ranges and Kelvinator refrigerators are in every apartment together with Inco disappearing beds and In-Vi-So roller screens at the windows. Brand new overstuffed sets, lamps and occasional furniture grace every living room.

All in all, the new building offers the latest and most modern living accommodations to be found in Torrance. All rooms are outside rooms with abundant ventilation. Even the light fixtures are new and modern and the apartments present an appealing, home-like appearance.

Exterior New
The exterior of the new building is light stucco trimmed with the same shade of green as is found on the new civic buildings. It is three stories in height and on the ground floor are several stores and offices. A new roof has been put on and the fire-escapes newly painted.

Cost \$20,000
The cost of all renovation and new furnishings will approximate \$20,000, and to Jack and Al Isen go due credit for giving Torrance a building of which it can be proud. Al Isen will move his law offices soon to a ground floor location on the Cabrillo

avenue side, while Jack Isen has already occupied a suite of rooms on the second floor. Mrs. Jack Isen will manage the apartments, which are offered for rent at reasonable rates. Contractors and supply houses are joining in wishing the Isens the best of luck in their new building. The ads on this page are expressions of their good wishes.

Three stories in height and fronting on both Gramercy and Cabrillo avenues, the newly modernized Gramercy Building, pictured above, is one of Torrance's show places. The building has ultra modern apartments on the second and third floors. The kitchens are equipped with electric ranges and Kelvinator refrigerators. On the ground floor are large store and office quarters, each with large display windows and completely redecorated. Jack Isen, long time resident of Torrance, and his son Albert, are responsible for the beautiful new structure which adds much to the beauty of the downtown area.

FOR RENT: GROUND FLOOR OFFICE in new Gramercy Building. Suitable for Real Estate, Insurance, Finance, etc. Apply 1607 Cabrillo. Phone 43-M.
