

Eight Club League

Details Are Practically Complete For Set-up of Federal Circuit

According to Manager Spud Murphy, who attended the meeting held at Inglewood last Monday night, everything is roses for the launching of the new night ball league about May 14.

The teams which will be included are Torrance, Huntington Park, Inglewood, El Segundo, Alhambra, Hollywood, Los Angeles, and one more to be selected. The eighth team will be either San Pedro, Santa Monica, Hermosa Beach or Montebello. San Pedro, according to Spud, wants to come in as a traveling club, in which event probably one of the other teams will be made a traveler.

The Los Angeles club has secured the use of Gilmore Stadium. The Hollywood club will either use the Cole Field at Fairfax and Highland or the Gilmore Stadium. The other clubs have good parks and are all set for the opening game. The schedule has not been made out, but a meeting with representatives of the National and American Leagues will be held soon for this purpose. It is planned to make the new Federal schedule conform to the dates of the other two leagues, so that the play-off series at the end of the season will not be delayed.

Murphy says that all the eight managers are congenial fine fellows and that the management of the new league will be in the hands of the eight instead of one or two. The boys are all happy as larks at the prospect of having a west side league, and expect a lot of enthusiasm from fans who now will not have to travel long distances to see their teams in action.

The Alhambra club, which is the farthest away, is the "hottest" spot in the circuit, Spud says. Attendance at games there last year never fell below 2,500, which is good advertisement for baseball in that section.

CHANGE IN FORD springs explained BY LOCAL DEALER

The transverse spring, a distinctive feature of Ford cars ever since they have been on the market, has been suspended in an entirely new way to make the Ford V-8 for 1935 outstanding for riding comfort, according to Schultz & Peckham, local Ford dealers.

"On the 1935 Ford the front spring is 7/8 inches longer and a quarter of an inch wider," Mr. Peckham said. "The rear spring is slightly longer than in the 1934 car, and both front and rear springs are softer to improve riding comfort. The spring leaves have been widened and tapered toward the ends to give greater flexibility and eliminate the possibility of squeaking."

According to Mr. Peckham, the transverse spring suspension is particularly adapted to modern operation, as it provides greater stability on curves at high speeds and eliminates sideway. This type of construction, he added, is responsible for the "free action on all four wheels" feature of the Ford V-8, whereby both front and rear wheels glide over uneven places in the highway while the chassis and body of the car remain on an "even keel" and provide a smooth, shockproof ride.

"Another important roadability feature of the 1935 Ford V-8, one that makes for ease of control and smoother operation," said Mr. Peckham, "is the continued use of radius rods in conjunction with the torque-tube drive. As in the 1934 Ford V-8, the radius rods perform the function of carrying the driving strain, leaving the springs, which are mounted on extensions of the radius rods, free to serve their sole purpose of supporting the body and cushioning the ride."

CHURCHES OF CHRIST, SCIENTIST

"Judge not according to the appearance, but judge righteous judgment." These words of Christ Jesus, from John, are the Golden Text in the Lesson-Sermon on "Unreality" on Sunday in all Christian Science churches, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

One of the Bible selections includes the verses from John: "In the beginning was the Word, and the Word was with God, and the Word was God. The same was in the beginning with God. All things were made by him; and without him was not any thing made that was made."

The Lesson-Sermon presents also this correlative passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "In the Gospel of John, it is declared that all things were made through the Word of God, and without Him [the logos, or word] was not anything made that was made. Everything is valueless or baneful. He did not make,—hence its unreality."

MORE FOR YOUR MONEY THAN EVER

Look at the combination of features shown above. Then remember this: You get them only in the new Ford V-8 for 1935. And you get them in addition to the low first cost and low operating cost that have characterized Ford cars—more than 22,000,000 of them—for 31 years!

Remember especially that this year you have the most important development Ford has offered since the introduction of the Ford V-8 engine. This is the new, exclusive Full-floating Springbase with Comfort Zone Seating—made possible only by Ford transverse springing—and resulting in "front seat riding comfort" for every passenger!

See this new Ford V-8. Drive it. You will realize then that it is the greatest car value Ford has ever built.
