

**IT'S A LONG TIME BETWEEN WEDDINGS**  
**FOLSOM, Calif. (U.P.)**—For the first time in 28 years, a marriage ceremony was performed in the old Methodist church here this month. Principals at the wedding were Miss Evelyn L. Bishop and Nicholas M. Harper, both local residents.

**Columbia Enrolls 29,612**  
**NEW YORK (U.P.)**—Enrollment at Columbia University for the current academic year aggregates 29,612. The total includes 17,899 students in the winter session and 11,713 in the summer session, and represents a gain of 4.9 percent over the previous year.

**More Drivers Lay Claim to Good Records**

**Chief of Police Admits He Deserved Ticket But Never Got One**

B. C. Buxton's claim to be the champion driver in Torrance, with a record of 35 years and only one ticket, has flushed a few birds out of the covey with similar claims, this week. Not yet has one appeared who can lay claim to as many years of driving as Buxton, but they point with pride to their stainless records.

B. B. Suttle, 1020 Portola, who drives daily to work at the Exeter Oil Company plant at Hynes, says he has been driving for 23 years with nary a ticket. Suttle has 12 years to go before reaching the Buxton limit, but since he has this peerless example of worth before him, will no doubt watch his driving more carefully than ever.

Chief of Police G. M. Calder lays claim to a quarter of a century of flawless driving. "There have been times when probably I deserved a ticket," says the chief, "but I was lucky and didn't get any." Tut, tut, Chief, don't ever admit it.

Another Torrance driver claimed 27 years and one ticket. This well-known citizen asked that his name be withheld, because he got the ticket just last summer while his wife was away on a vacation and he has kept her in ignorance of the slip, although he had a perfectly valid excuse for speeding.

How many more perfect drivers are there in Torrance? Step up and lay your claims before the judge.

**Goat Devours Subpoena**  
**FORT WORTH, Tex. (U.P.)**—Deputy Sheriff Frank Winters had to serve two subpoenas. When he stopped to talk on the street a wandering goat carefully nibbled away half of the first one as he held it behind his back.

**Salt Superstition Endures**  
**MADISON, Wis. (U.P.)**—Members of a Russian group here are reputed to avoid passing salt to a guest at table under the superstition that death would overtake that guest on the way home.

**Thanksgiving**

By VERNA P. THISTLE

What if the Sun, with its heat and its light,  
 Withheld both from the Earth, and we had nothing but night;

And the clouds, full of water, just floated away,  
 So that no moisture descended day after day  
 To give to the thirsty land life-giving power,  
 Then all the trees withered and every gay flower;  
 And our song birds would sit, with mouths open wide,  
 Not a note could they sound, as much as they tried;  
 While old Mother Earth, just packed full of seeds,  
 Would neglect to bring forth to supply creature needs—

You can't imagine the impossible, you say?  
 Well, if it wasn't for One who watches each day  
 And kept things in place—we'd fare very slim  
 He keeps us in mind—but we forget Him;  
 We accept every thing that He has to give,  
 And would take even more—for ourselves we just live;  
 But He's the One who in eminence ranks,  
 And we seldom, if ever, take time to give "THANKS."

**New Factory Slated to Establish Branch In This Section Shortly**

**MILWAUKEE, Wis., Nov. 26.**—Globe-Union Manufacturing Co., of Milwaukee, Wisconsin, one of the largest manufacturers of automobile batteries in the country, is to establish a branch factory in California shortly. C. O. Wanvig, president, has announced.

The branch factory is part of an expansion program projected for 1938 by the battery company. Another factory is to be established in Dallas, Texas. The company already has factories in Seattle, Philadelphia, Cincinnati and Memphis, with its main plant in Milwaukee.

"Increased production demands have made it necessary to expand our manufacturing facilities," Mr. Wanvig said. "In spite of the depression, Globe-Union Mfg. Co. has made and shipped approximately 6,000,000 automobile batteries during the last five years. Our present plants have a capacity of 8,500 automobile batteries a day. Our two contemplated factories will increase this substantially."

The new California plant will employ approximately 100 persons at the start, with expectations that as business develops on the west coast the facilities will be increased. Mr. Wanvig said the company now has more than 1,300 employees. In addition to automobile batteries the company's sales of roller skates, spark plugs and radio parts exceeds \$2,000,000 annually.

The California plant will be designed especially for production of automobile batteries, and for the present it is not expected other Globe products will be made there. Provisions so these products may be included in the new factory production schedule have been provided, however.

"A careful check of national markets revealed to us the opportunity of extending our activities by establishing a factory in California," Mr. Wanvig said. "As soon as the new plant gets into production we shall be able to serve thousands of dealers and distributors on the west coast with greater facility than at present."

Location of the plant has not been divulged, but it is expected it will be established in the metropolitan area.

**Girl Will Recover From Bullet Wound**

Betty Jane Smith, who inflicted a bullet wound in her chest in an alleged attempt to take her own life Saturday, was removed to the General Hospital later after being given first aid at the Jared Sidney Torrance Memorial hospital here. She is expected to recover. The young woman came to the home of H. D. Stitts, 26008 Pennsylvania avenue, a short time ago, accompanying Stitts' son Ollie, who was seriously ill and passed away soon afterwards. After the young man's funeral services had been held, the girl, who was a stranger to the Stitts family, was asked to leave. Shortly afterwards she went to a shed in the rear of the house and fired a bullet into her chest, which struck a rib and glanced around to emerge under the shoulderblade.

Her parents reside at 1225 15th street, Hermosa Beach.

 All Torrance Herald ads run in the Tri-City Shopping News without extra charge.

**Training Begins For Festival Of Allied Arts**

**CHICAGO (U.P.)**—Near the chapel altar at Rosary College in suburban River Forest, a giant candle is burning, dedicated to the cause of international peace and brotherhood. It will burn for 100 years.

**Booklet of Rules Now Available to Prospective Candidates**  
 In order to permit competitors to have five months for intensive study and preparation before participating in the 1938 Southern California Festival of the Allied Arts, the 32-page booklet giving rules and regulations of the contests is now completed and will be available for distribution tomorrow. Interested persons may secure copies at the office of the Women's Community Service Auxiliary of the Los Angeles Chamber of Commerce, 324 Chamber of Commerce building, Los Angeles, according to Mrs. Grace Widney Mabey, general chairman. Dates for the festival are set from May 4-29 inclusive.

The festival, which offers scores of contests in music, drama, dancing, art and creative writing, provides an opportunity for ambitious individuals to measure their talents with others proficient in the same fields. Competition is open to persons of any age, living in any part of the United States.

Prizes for winners in the 1935 contests were conservatively estimated at \$20,000, and will reach or exceed that amount this coming year, according to festival officials. These awards took the form of cash prizes, scholarships, engagements on club programs and gifts appropriate to the different divisions. Gertrude Mowry, 2112 Carson street, was one of the winners this year.

**Felony Charge Is Reduced to Battery**  
 Thomas J. McCune, 1210 El Prado, who was arrested in Redondo Beach November 17 on a serious charge preferred by a prominent Redondo Beach woman, was given a preliminary hearing before Judge Austin of the city police court in that city Monday afternoon. The charge at this time was reduced to one of battery, and McCune was fined \$360 or 180 days in the county jail. In default of payment he will serve the sentence.

McCune was accused of attempting to attack the woman while walking in the park above mentioned, and had been held under \$5,000 bail, but at the hearing the felony charge was reduced to battery, a misdemeanor.

**Apple Tree Yields 35 Types**

**FREDERICKTON, N. B. (U.P.)**—An apple tree, one of the miracles of modern day tree surgery, is being studied with interest by agriculturists here. This year more than 35 different types of apples grew from its branches.

**Move to Join Metropolitan Water District**

**Hermosa Beach Strives to Secure Adequate Water Supply**

Since a move to interest Redondo Beach in forming a joint water district has failed, Hermosa Beach will take steps to join the Metropolitan water district, according to Mayor John W. Clark of the latter city. Two years ago a movement was started to form a local water district and sink wells, but these plans also failed to materialize, and the beach city is now facing the necessity of securing an adequate supply from some other source.

A municipal bond election will be called to float an issue of \$24,000 which will enable Hermosa Beach to join the Metropolitan district.

**Hospital Notes**

Harry Archer, 814 Mahar street, Wilmington, entered November 21 for medical treatment.

Louis A. Peterson, 8200 Bell avenue, Los Angeles, a P. E. motorman, was given first aid for a scalp wound Monday morning at 2 a. m.

Mrs. Barbara Matterson, 905 Second street, Hermosa Beach, entered November 20 for medical treatment.

Betty Peterson, 3-year-old daughter of W. A. Peterson, 1618 Cedar avenue, entered Monday for a tonsil operation.

W. P. Wynnegar, 727 North Juanita, Redondo Beach, manager of the Torrance baseball team, underwent a tonsil operation Monday.

To Mr. and Mrs. Frank A. Gibson, 18920 Brighton, Gardena, a boy, November 21.

To Mr. and Mrs. W. James Hale, 1535 Compton boulevard, Gardena, a boy, November 25.

**Candle to Burn 100 Years**  
 CHICAGO (U.P.)—Near the chapel altar at Rosary College in suburban River Forest, a giant candle is burning, dedicated to the cause of international peace and brotherhood. It will burn for 100 years.

**Keeping Up With Torrance High**

By RAY DAVIS

Alas and alack! With football season practically over, and all the excitement hidden somewhere unknown, a poor author will have to consult the basketball boys for some real live news.

But, first, a bit about football. With Torrance beaten only by Bell in the sectional game, the Tartars stand as co-champions with Narbonne for the 1935 season.

The team, of course, depends very greatly upon the coach. For the past three years Torrance high has had the honor of claiming Bernard J. Donahue as coach and director of athletics. Mr. Donahue, a man of worth and character, has built up Torrance football squads in morality, integrity, alertness and dependability. To Mr. Donahue ("Coach" to you), every citizen points with pride and honor.

To you, Mr. Donahue, the faculty and associated students of Torrance high school, as well as every citizen of Torrance and every member of the football squad, express their extreme gratitude for the way in which you have pulled the football squad to victory and "put Torrance on the gridiron map."

To the injured list, this column expresses its sincere gratitude for the injured players' faith and "intestinal fortitude," which they have displayed by their attendance at football practice even after bodily injury.

In a game played last Friday on the Los Angeles high grid, Torrance's greatest rival, Narbonne, conquered the L. A. high Romans to a score of 19 to 12. Woods, veteran Narbonne back, picked up a kickoff on his own goal line and ran the length of the field to score the second touchdown for Narbonne. Congratulations, Narbonne.

November 27! The big day and—oh, what a day! Torrance will play in the Coliseum at the big football carnival and will play the Fairfax eleven. The teams of the north and south will meet each other in gridiron battle with fine teams on both sides. Torrance is to be one of the southern teams. The gate receipts will be used for the Parent Teachers milk fund. The admission price will be one thin dime to students and one quarter of a dollar for general admission.

**Resident For 50 Years Passes Away**

Mrs. Caroline C. Taylor, age 85, passed away at her home, 286 Carson street, Keystone, Saturday, November 23, after a residence in California of 50 years. She was born near Ipaanti, Michigan, and came to this state half a century ago. Mrs. Taylor leaves one son, F. T. Taylor, 4132 Via Picaposte, Palos Verdes Estates, Christian Science services were held at Stone & Myers chapel, Monday afternoon at 2 o'clock, Mrs. Stevens, reader.

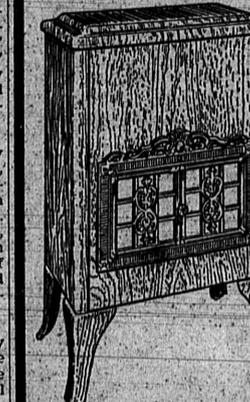

discussion classes held from 10:30 to 12:30 which were extremely interesting to all the girls. Luncheon was served at 1 o'clock and each table had no more than one representative from the same school. The girls made many new friends and enjoyed it all very much.

Eagle Rock was the setting for the convention of the Girls League of Los Angeles, Saturday, November 23. Thirty-three schools were represented and Torrance had five representatives, Miss Parks, Miss Vaubel, Lucille Stroh, Agnes Peet, Eleanor Smith. A wonderful program was given in the auditorium, featuring the athletic dancing class and the acapella choir of Eagle Rock high. There were
