Grunow Radio

with the revolutionary
Teledial
TUNING

TELEDIAL is automatic tuning ... just select your station and pull dial down to the center ... more accurate than manual tuning ... the station you select come in instantly tuned to perfection.

(Because of the great demand for the new 1937 Grunow the factory was so busy it was unable to supply us with pictures of the many new models. We have them on display, however, and will be glad to demonstrate their superiority over all other makes of radios. Come in and see them.)

Important things
you don't see when you look at a MAYTAG

You don't see the years of experience that have gone into its development, the millions of dollars' worth of modern machinery that builds the parts, nor the fineness of the material which goes into those parts. You don't see the 219 separate inspections which protect every workmanship. You simply know that Maytag is the choice of more women than any other washer... offers greater satisfaction for more years. Easy Deferred Payment Plan.
