

Community Has Use of Nine Centrally Located Sources of Nature, Well Maintained . . .

● TORRANCE . . . on Review

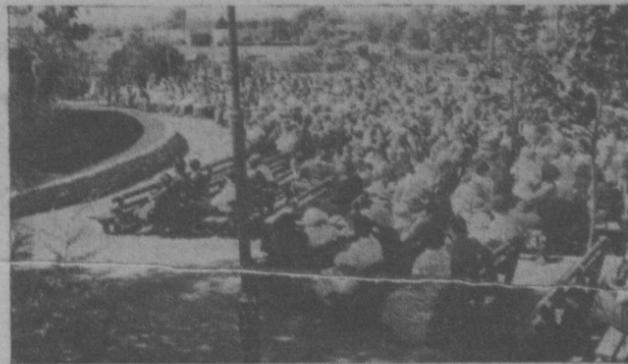

One large and eight small parks.

Total area about 20 acres.

Municipal park recently developed.

El Prado park reaches into business district, with high school at opposite end and civic buildings on flanks.

Barbecue pits, picnic spots, and concert shell feature municipal park.

● Audience Packs Seats for . . .

● Outdoor Theatrical Performance.

transplanting operation was quite successful. Not a palm died, and the loss of a few cypress trees, with their 25-foot-long taproots, was to be expected as these trees have always been very difficult to move.

Casualties were replaced and today Torrance has a park that would do credit to a much larger city, with trees that

antedate the city itself in age and a most pleasant location for anyone who wishes to enjoy a few hours in a peaceful, restful quietude.

Not to be overlooked in a story of Torrance's park facilities is beautiful Alondra park, directly contiguous to the northern city boundary, destined to be one of Southern California's most beautiful de-

velopments. An article on this park appears on another page of this issue.

The Municipal park is now in charge of a committee consisting of Councilmen Tom F. McGuire, George V. Powell and W. H. Tolson, while Councilmen J. E. Hitchcock, W. H. Stanger and Tom F. McGuire have charge of the other eight city parks.

● El Prado Park.

● A Neighborhood Spot.
