

'STINGY' CAR VISITS CITY

Chevrolet Winner of Famed Economy Run On Tour

One of the nation's "stingiest" cars made its appearance here yesterday with the arrival of the Chevrolet sedan which captured first place in its class in the world famous Gilmore-Yosemite Economy Run last month. The trophy winning car was driven here by Jack Hull of the Gilmore Oil company, who was one of the officials who assisted in handling the details of the recent mileage classic, and was put on display in the showrooms of Ed Thompson, local Chevrolet dealer.

"We've been looking forward eagerly to seeing the car that made such a fine record in the Gilmore mileage test," said Thompson. "Of course it's no different in any respect than any current Chevrolet sedan because American Automobile Association rules for the mileage event specified that every car in the run were literally torn apart by A. A. technicians to be sure every entrant complied to the rigid stock specifications."

Like the other 23 cars entered in the Gilmore-Yosemite Run, the Chevrolet had to make two climbs to over 4,000 feet, battle icy grades, blizzards and snow on the 352 miles between Los Angeles and Yosemite National Park. Despite the handicaps imposed, the sedan achieved the remarkable record of 41.8 ton miles per gallon of Red Lion gasoline to win first place in its price class.

City Resumes Safety Effort

(Continued from Page 1-A)

The highway within the city limits, Officer Ashton will devote his attention to that thoroughfare for the next 30 days. The council authorized Police Chief G. M. Calder to employ a temporary officer to take Ashton's place elsewhere in the city.

During the month an effort will be made to enlist the aid of the Automobile Club of Southern California in the city's new move to obtain proper traffic safety signs.

Open Building Bids Next Monday Night

Next Monday night the city council will again open bids on the proposed administrative building to be constructed adjoining the civic auditorium on El Prado. The first set of quotations were thrown out early in January when the prices were held too high.

The council learned Tuesday night from City Auditor C. J. Rambo that PWA authorities in Washington have again approved the federal allocation of about \$8,500 toward the cost of the building. In accordance with their request, the council adopted a resolution unconditionally rescinding the PWA grant toward the proposed new fire station, plans for which have been discarded by the city.

"Owl-Eye" Buttons Placed On Streets

"Street Owls" are now guiding night traffic at Torrance boulevard and Maple avenue and soon they will be leading their "eyes" at Hawthorne and Sepulveda, at the end of the parkway on Torrance boulevard, and at Carson and Madrona streets.

The "street owls" are the reflector buttons set in pavement at regular intervals to direct motorists at night. They are being installed by Street Commissioner William Gascoigne.

Foursquare Church In New Location

The Four Square Gospel services have been moved to the Legion clubhouse on Carson street, according to Rev. R. M. Thomas this week. Sunday school begins at 9:30 o'clock, followed by preaching at 11. The evening service is at 7:30 o'clock. Regular meetings are also held Wednesday evenings.

Concerts, Revival Prove Successful

The recent sacred concerts and revival meetings at the First Baptist church proved a success, according to the pastor, Rev. C. Miles Northrup. Despite cold and rainy weather and considerable sickness, the attendance was good and the music by the Mason Bell Ringers was excellent. The talented musicians climaxed their stay here with a concert at the Civic Auditorium Tuesday night that was well attended.

The children's meetings afternoons in the church grew in number daily and as a result the Masons made many friends among the younger as well as the older folk in this city. Rev. Mason presented a \$2.50 prize to Irene Fix for the best report of his sermon last Friday night. A second prize of \$1 was won by Kenneth Vaughn.

CHRISTIAN SCIENCE CHURCHES

"Soul" is the subject of the Lesson-Sermon on Sunday in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts. One of the Bible selections includes these verses about Jesus, from Matthew: "And behold, there was a man which had his hand withered. And they asked him, saying, Is it lawful to heal on the sabbath days? that they might accuse him. And he said unto them, What man shall there be among you, that shall have one sheep, and if it fall into a pit on the sabbath day, will he not lay hold on it, and lift it out? . . . Wherefore it is lawful to do well on the sabbath days. Then saith he to the man, Stretch forth thine hand. And he stretched it forth; and it was restored whole, like as the other." The Lesson-Sermon presents also these words from "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Knowing that Soul and its attributes were forever manifested through man, the Master healed the sick, gave sight to the blind, hearing to the deaf, feet to the lame, thus bringing to light the scientific action of the divine Mind on human minds and bodies and giving a better understanding of Soul and salvation."
