Guests, including Mr. and Mrs. Elson, Mr. and Mrs. Takeno and Sei Fujii, were then introduced by Tsuyoko Fukai, president of the Japanese club. A very appetizing dinner was served to the group. However, the Street committee and City Engineer will meet with the chamber directors to learn more details about the proposed Hollywood job.

SWITCH TO ELECTRIC COOKERY

*It's faster and better*

● The miracle of electric cookery is the speed with which meals are prepared. Modern electric ranges are built for fast cooking. ● And an electric range operates automatically, with little personal attention. You place a complete meal in the oven, set the control and forget it until meal time. Then it comes to the table, perfectly cooked to a mouth-watering flavor that only a sealed electric oven can impart. ● Once you taste an electrically cooked meal you'll never go back to any other method. An electric range is operated for only a few cents a day on the low domestic wholesale rate. See the new models at your dealer's store.

Col'm Under Construction

By BETSY BYRNES

"I know I must be wrong. But I cannot love ping-pong. I cannot sing in praise of ping. I have no song for pong."

### QUESTIONS:

So you like the questions about California place names? Here's one you think you won't be able to answer. What was the original Spanish name for North Broadway in Los Angeles?

Who knows anything about the history of the table knife? While we are on the subject of table implements, here is another question: What is the origin of the word "spoon"?

### TODAY'S PROVERB

"He who does not become handsome before 20, strong before 30, wise before 40, and rich before 50, on such a man good victuals are lost."

—German. As we are very fond of proverbs, we were especially pleased to hear that the illustrious Disraeli once said, "A review of proverbs should enter into our reading."

### ANSWERS:

The original Spanish name for North Broadway was Calle de Eternidad, (Eternity Street). Apply named, too, for it led from the church to the cemetery.

The history of the knife differs from the history of the fork. The knife has been used at the table since ancient times. At first, daggers were used for cutting up food. Then special knives were used, and were tested about in the belt or shoe. The first table knives had good broad ends, so, no doubt, the peas stayed on quite well.

The word spoon comes down to us from the Old English word spon, which means splinter of wood.
