## Mosher Named President of Lomita Chamber

E. M. Mosher, publisher of the Lomita Progress, was elected president of the Lomita Chamber of Commerce at an organization meeting of the board of directors Monday evening. His corps of officers includes Dr. T. W. Bullock, vice-president; A. F. Franklin, treasurer; and H. H. Halladay who was reemployed as secretary. Other members of the board of directors chosen at a meeting held recently are Marion Welch, Joseph Burkhardt, A. M. Gamby, Hugo Schmidt and Coy Farquhar. President Mosher is named chairman of entertainment committee arrangements for a big get-together meeting of the members of the Chamber to be held at a date to be announced, when the new officers and board will be formally presented to their constituents. At the next meeting of the board, Monday, July 19, President Mosher will announce his list of committees and appoint the chairmen. Mosher succeeds S. D. Patterson, realtor, who has just completed his second term of office as head of the chamber.

## Yacht Harbor Not Favored

Although growing demands of commercial interests at Los Angeles harbor have prompted local interests to seek new anchorages, the Army engineering corps does not feel it should build them with relief money. This was inferred from preliminary reports filed with the War Department in Washington by Major Theodore Wyman, Jr., U. S. district army engineer at Los Angeles, covering four possible local yacht harbor projects. Covered in Major Wyman's report were proposed pleasure craft basins at Redondo Beach, Alamitos Bay, and Playa del Rey, and proposed improvement of the existing yacht harbor at Santa Monica. Rejection of the proposals was on the basis that they were not economically justified from the standpoint of general commerce and navigation, which constitute the basis for dredging operations by the War department. Employment of a harbor engineer to survey the possibilities of new anchorages for yachts is being considered, according to William Fox, chief engineer of the county regional planning commission.

## New Law Will Add to Fire Dept. Force

Addition of three men to the Torrance fire department will be required unless compliance with a new law adopted by the legislature and which will go into effect Oct. 1, says Fire Chief A. D. Stevenson. The added cost to the city will be approximately \$4,200, to take care of the salaries for the new men. The new law requires that all municipalities employing a paid fire department shall grant to each member an annual vacation of 15 days with pay, and additional time off of four work-shifts in each month. No reductions in salaries may be made to take care of the added expense. Under the present arrangement Torrance firemen are granted vacations with pay, so that the new law entails no change in that respect. The extra requirement of work shifts off per month will cut down the working time for each fireman to about 72 hours a month. Small Cities Hit  
Chief Stevenson is taking the matter up with the mayor and city attorney, either to make arrangements for compliance with the new law or to find some way to relieve the city of the extra expense which will follow if new men are added to the force. Small communities, according to the chief, are finding the new law will entail more expense than they can afford, but will be unable to return to the volunteer department plan since the new regulation forbids any impairment of service. Cideracyote  
1 tender summer squash  
1 tablespoon butter  
2 roasting ears of corn  
1 teaspoon sugar  
Salt and pepper  
Peel the squash and cut into cubes. Fry until tender in the butter, stirring frequently. Add the seasonings and the sweet corn cut from the cob. Have about a quarter as much corn as squash. Continue cooking until the corn is soft.

## DETOUR

Col'm Under Construction By BETSY BYRNES  
"I know a bank where the wild thyme blows,  
Where oxlips and the nodding violet grows;  
Quite over-crowded with lush-cious woodbine,  
And sweet musk-roses, and with eglantine."  
—Shakespeare.  
Charming words, those from "A Midsummer Night's Dream."  
QUESTIONS  
What is another name for woodbine?  
So you think it is time for a few more words, do you? All right, then... How do you pronounce masculine, heinous and pumpkin?  
One of the days of the week was named in honor of a woman. Which one?  
TODAY'S PROVERB  
"He that would just must take a jest,  
Else to let it alone were best."  
A better known version of that old proverb is, "You can dish it out, but can you take it?"  
ANSWERS  
Woodbine's other name is wild honeysuckle. Eglantine is commonly known as sweetbrier. The fragrant thyme, also mentioned in the verse at the head of the column, has been known for many, many years. It is even said that thyme was one of the plants which made the Virgin Mary's bed.  
We know that you pronounce the words correctly... the explanations following are for the benefit of someone else! Masculine is not mas-cu-line, but mas-cu-lin. Heinous is pronounced hay-nus! A pumpkin is always a pumpkin.  
The sixth day of the week, or Friday, was named for a woman, the goddess Friga. All of the days of the week came from Saxon deities: the sun, the moon, Tuiseo, Woden, Thor, Friga and Saeter.  
ADIOS  
"Lives of great men all remind us,  
We can make our lives sublime,  
And departing, leave behind us  
Footprints on the sands of time."  
—Longfellow.
