

Over 100 Present at District Legion Auxiliary Luncheon Here Yesterday

Torrance Unit Entertains in Honor of District President

Long tables attractively arranged and decorated in blue and gold, low bowls of bachelor buttons and marigolds placed at graceful intervals, attractive place cards marking September as educational month and a delicious luncheon started the year for the 19th district American Legion Auxiliary Wednesday.

The luncheon was served in the Legion hall on Carson street with more than 100 women in attendance.

Torrance Bert S. Crossland Unit 170 played hostess and at the same time honored its first district president, Lucille Lewellen, by presenting her with a lovely gift. After the luncheon a musical program was presented, which included selections by Torrance Unit glee club and vocal solos by Bee Shawyer.

Hold Business Meeting

Mrs. Lewellen presided at the business session, where the group voted to raise the price of president-secretary luncheons to 50 cents per plate. Luncheons formerly cost 35 cents.

Among distinguished guests at the affair were Beatrice Trumbull of Maywood, state poppy chairman, who left last night for New York City to attend the National convention; Helen Lechner of Inglewood, state radio chairman, who announced a broadcast from the national convention over KECA Monday, Sept. 20, from 11:30 a. m. to 12:30 p. m.

Mary Starkey, junior past president of the Los Angeles County Council and district membership chairman, assigned membership quotas to each of the 23 units represented at the afternoon session and urged that all get their quotas in time to qualify for citations.

Redondo Beach Auxiliary immediately on receiving its quota assignment challenged the Torrance unit to a membership race. This was accepted by Audie Modglin, local president. Bess Myers served as chairman in presenting the luncheon and Alice Thompson was dining room chairman. Some 20 other members of the Torrance Unit assisted.

Here's a Hint

Grease has a habit of spluttering and snapping in the frying pan. Put about 1/4 teaspoon of flour in a small sifter and sift to the hot grease. Spluttering will stop instantly. Incidentally—watch this paper for complete details about our classes in Modern Gas Cookery. You are cordially invited to attend!

Kathryne Buffington Opens Interesting Piano Courses

With the opening of the fall season of 1937-38 Kathryne Buffington, pianist and teacher has completed 14 years of successful teaching, half of it in Torrance. Graduating from Washington State College in 1925 with a B.A. degree in music, she came to Los Angeles for further advanced study in piano, climaxed her study for the past four years with the distinguished pianist and teacher Richard Buhlig of Berlin and Los Angeles. Every summer Mrs. Buffington has attended the various classes given by the outstanding normal training teachers of the United States and she is ever alert in her search for the latest and best in music education.

Since 1929 Mrs. Buffington has been an accredited teacher with the State Board of Education, which entitles high school students studying with her to receive high school credit and grades for piano study. Piano students whose instruction is not based on a plan recognized as authoritative are taking lessons to no purpose and they gradually lose interest. It is a well-known fact that the average child who takes piano lessons stops at the end of the first year, or at the most the second year. This is a serious waste of energy because of his choice.

The work of the studio has been recognized throughout the neighboring cities and there are students enrolled from Wilmington, Waltham and Lomita. For years Mrs. Buffington has held monthly studio recitals here.

For the past three years students who study with Mrs. Buffington have had the advantage of duo-piano work, and further experience in ensemble playing is given by grouping students in quartets and trios. Her students are known for their individuality and style in playing and for their command of the keyboard. She has been especially successful in re-building students who have studied for eight or nine years to no purpose and who need to be re-directed in their piano study.
