Co. Sanitation Bureau Serves Big District

A survey of the bureau of sanitation of the Los Angeles county health department, which also serves Torrance under contract, has been completed by the county department of budget and research with a view toward possible reorganization of the unit.

The bureau now is responsible for proper sanitation in 3,000 square miles of territory with a population of nearly 1,000,000 and with 350,000 dwellings. In addition to enforcing state sanitary laws and county ordinances, the bureau also is responsible for enforcing such city ordinances as are covered by the contract with Torrance.

All laws, rules and regulations pertaining to sanitation as applied to food, drugs, milk, water supply, sewage disposal, swimming pools, institutions, public nuisances and sanitation in general, are enforced by the bureau.

The territory under bureau jurisdiction is served by more than 8,800 food handling establishments, markets, restaurants, etc., the report pointed out. "There are 370 water companies operating 743 wells, 252 reservoirs and 408 tanks. Large numbers of sanatoria, institutions, boarding homes, dairies, and other places of business requiring inspection are the territory. The bureau staff made a total of 179,200 inspections last year.

R. R. Commission Sets Date for P. E. Petition Hearing

Hearing of the Pacific Electric railway's request to abandon passenger service between Plaza del Amo in Torrance and San Pedro has been set for Sept. 23 by the State Railroad Commission, it was learned here this week.

In its petition, the railway stated that service schedules with its Los Angeles train thru Gardena will be arranged by motor bus which will operate a line from Torrance thru Lomita and Harbor City to San Pedro.

At the time when the Pacific Electric notified the city council of its intention to abandon this part of its passenger service there was some consideration to opposing the move. Suggestions were advanced that the city's consent to this change be given only when the railway company agreed to deed back its present right-of-way on both Cabrillo and Torrance boulevard in order that long-awaited widening and beautification on those two city streets could be accomplished.

No further consideration has been given of this counter-proposal in regular council sessions however.

Losers Spent Most in Recent Primary

Unsuccessful candidates in the Aug. 30 primary were the biggest spenders, according to the expense accounts filed this week with the county recorder. William G. McAfee expended \$12,315 in his losing fight with Sheridan Downey for the U. S. senatorial toga, while John F. Dockweller, listed \$8,886.81 as the cost of his unsuccessful fight for the Democratic gubernatorial nomination.

Schools Close Tuesday for Legion Parade

All schools in the Los Angeles system, which included Torrance and Lomita, will be closed all day next Tuesday to permit students to see the National Legion parade.

At Torrance high school a special Legion assembly program will be presented Monday afternoon at 2 o'clock with Roy L. Cook, principal speaker. Cook is a New Mexico delegate to the Legion convention and is chairman and executive director of the Unemployment Compensation commission of his state. He is also a past department and national vice-commander of the Legion.

No Pay Boosts for Co. Workers

"No salary increases and no additional employes this year." Heads of the county government's 52 departments and their 15,000 employes today faced this edict, the first laid down by Col. Wayne R. Allen in his new capacity as chief county administrative officer.

"In event of any emergency, the department concerned must establish sufficient savings in salary and wages to meet the additional cost," Allen's bulletin informed the department heads. "Even then, authority must be obtained to expend the money for unbudgeted purposes."

CHURCH PICNIC HERE

The Central Evangelical church will hold its annual Sunday school and church picnic at the city park, Saturday at 2 o'clock, with picnic dinner at 5:30.

Bonus Urged for Brides

LONDON (U.P.)—The suggestion women should be given \$750 when they get married was advanced by Mrs. A. M. Millard, lecturer on economics.

In PANAMEXICO that light-hearted traveler, Carveth Wells, has done an account of his most recent expedition to the Panama Canal Zone and Mexico. His observations upon the Canal Zone and explorations in the Panamanian jungle afford most entertaining reading. Upon leaving Panama Wells landed on the west coast of Mexico where he picked up his car and trailer and proceeded to "do" the country in this most up to date method. Mexico City, Cuernavaca and Taxco were of course visited, a successful climbing of Mount Popocatepetl accomplished. His account of motoring out of Mexico to Laredo, Texas, over the new Pan-American highway is of special interest to motorists. The book is delightful, full of information, witty and entertaining.

GALES, ICE AND MEN; A Biography of the Steam Barkentine "Bear" by Frank Wead: "Etched against a background of fog, ice, gales and the sea, this is the story of the life of a ship." "The steam barkentine 'Bear' is one of the longest lived, most beloved and gallant little crafts ever to sail salt water. In her youth she was bought by the Navy, she rescued the Greeley Arctic expedition. During her early years, she brought civilization to Alaska; maintained law and order during the gold rushes and succeeded in starving ice bound whalers. She repeatedly aided or carried famous Arctic explorers. Finally, the old she was given another chance and carried Admiral Byrd to the Antarctic. Because she was so much a part of them, the stories of the Coast Guard, Bering Sea Patrol, Arctic Eskimos and Alaska are interwoven with her story and picture for us the early days of our North, Northwest.
