Rival Mentors From Rival U's

The football fortunes of Torrance and Narbonne high schools in the Marine league this fall may follow the success or failure of U.S.C. and U.C.L.A. in the Pacific coast conference. This observation is based on the alma maters of the new grid coaches at the local high schools.

This week Bill Sloan, a U.S.C. graduate last spring, was assigned to coach the 1938 edition of the Narbonne Gauchos. At Torrance high school, Robert Barr, U.C.L.A. alumnus, will mentor the Tartar grid team. Both, according to advance reports, intend to develop their respective squads on the fundamentals of the gridiron game as they learned them in their respective universities.

So it looks like the Torrance-Narbonne game will be a junior Bruin-Trojan scrap this fall. Barr will be assisted in directing football activities here by Coach Pete Zamperini, while Sloan at Narbonne will have the assistance of Wayne Sloss and Charles Sutcliff.

Because Banning high school was added to the Marine league for sports events beginning with the opening of the new term Sept. 13, the league grid schedule had to be changed this week. The new bookings show that the newcomer to the league will play Torrance high on the local field Oct. 28 instead of Narbonne coming here.

TENNIS COURTS AND PLUNGE AWAIT VOTE

All details, except the mechanical equipment necessary to operate the plunge, of a proposed municipal plunge, bath-house, tennis courts and subway designed for the city park are shown in the above sketch of the major recreation project coming before Torrance voters next Tuesday. These facilities would be located on a triangular plot of the park extending 575 feet along Lincoln avenue on the north, 347 feet along Cabrillo avenue on the east and 672 feet along the Santa Fe right-of-way on the southwest.

Four championship illuminated tennis courts are proposed along Cabrillo avenue (lower foreground of the above sketch), with bleachers facing them and between the handball courts and swimming pool. The plunge is to be 50 by 105 feet in size to permit regulation swimming events. Decks 15 feet wide go around the three sides of the pool while the lower end, equipped with spring boards, will be 20 feet. All mechanical equipment for purifying and pumping water will be located under this end deck.

There will be a spectators' gallery and a wind-break on the south side. The bath-house will include: On the west end (marked "M" on the sketch) a men's dressing room 40 by 27 feet with showers, laundry and first aid room. The main lobby and office will be 44 by 37 feet and on the second floor of that part of the structure will be living quarters for the caretaker or custodian of the plunge. The women's dressing room (marked "W") will be 61 feet long and 27 feet wide.

At the east end of the women's quarters will be public rest-rooms reached from outside the plunge off Andree avenue. As shown at the top center above, a tunnel will permit easy access to the plunge under the Santa Fe tracks from other parts of the city park.
