National Rifle Assoc. Officer Raps Gun Law

(Continued from Page 1) fense of the British Isles where private ownership of firearms was discouraged by means of this type of legislation.

We do not want to follow in the steps of European nations, later to regret them as France has done or to rescind them as England has done.

Strong Arm Advantage

To a casual reader there is no apparent harm in the proposed current ordinance. But on closer analysis, there is no actual benefit to be derived from the enforcement of the law, except the one you have indicated in your letter—to assist in the recovery of stolen guns in case of theft or burglary.

I do not believe that it is the proper function of the police department to retain extensive records describing personal property. There is no more reason for this purpose than there is for them to retain a record of the number of binoculars, cameras or other photographic equipment.

The benefits of such an ordinance to the city would certainly not offset the expense of administering the ordinance. But most important—think of the advantage the possession of such a list would give to a strong arm organization of the Storm Troop variety when they decided to take over control of your municipal government. Although this possibility may sound far-fetched at the present moment, this technique has been used with success in nearly every European country within the past few years. We don't want it to happen here.

The city of Torrance should not adopt an ordinance of this type.

Cordially yours, (Signed) NATIONAL RIFLE ASSOCIATION, F. M. Hakenjos, Administrative Assistant.

Commander Bird of Legion Favors Gun Registration

(Continued from Page 1) tal offense.

The American Legion has always cooperated 100 percent with the National Rifle Association, believing it to be a truly American organization devoted to the encouragement of our citizens in the expert use of firearms. For this reason, we are at a loss to understand the motive for your present objection to an ordinance designed solely to assist the forces of law and order.

We have always and always shall, cooperate to the fullest with the nationally known program and objectives of the Association, but very frankly, we resent the intrusion of the Association in a matter with which it should be unconnected.

(Signed) EDWIN BIRD, Commander, Bert S. Crossland Post, No. 170, American Legion.
