

Ford Sedan Tops Tri-State Run to Grand Canyon

A big 1941 Ford Super DeLuxe sedan, overcoming difficult road conditions on a 14-consecutive hour tri-state run, swept to a decisive victory in its price class in this year's Gilmore-Grand Canyon economy classic, it was announced today by Schultz and Peckham, local Ford dealers.

Not only did the new Ford's marks of 23.05 actual miles per gallon and 49.57 ton miles per gallon enable it easily to defeat all rivals for the Division "B" championship, but also it surpassed the record of more than half of the 24 entries in all classes, including many cars equipped with overdrive. It was the third consecutive year that Ford has proved victor over other leading volume production cars in its price class, the local dealers pointed out.

All told, the Ford consumed only 25.8 gallons of gas, in covering the entire distance at an average speed of 43.19 miles per hour. The winning entry completed the course well under the 14-hour, 15-minute time limit allowed for the run, the local Ford men said.

Tops Driving Hazards

Reliability of the record established by the Ford car was attested to by A. A. officials, who declared that this year's course was ideal for economy demonstration. Because of the great distance to be covered in the 14 1/2 hours allowed, and the varying weather conditions encountered, the run was as close to actual driving conditions as such a contest could be, it was agreed.

Every car was forced to obey traffic laws explicitly, and coasting or trick driving of any kind was not allowed. Moreover, the strictly stock model Ford sedan met and overcame virtually every type of driving hazard. There was night driving, starting and stopping in city traffic, twisting and turning on narrow mountain roads, steep grades to climb, and all kinds of weather.

Here's Some Tips to Make Your Income Tax Compilation Easier

With more than 925,000 Southern California residents expected to file Federal income tax returns before the deadline of March 15, over 550,000 of whom will be filing for the first time, Collector of Internal Revenue Nat Rogan today issued instructions designed to simplify the task of making required reports.

Taxpayers this year must NOT deduct: California sales taxes, gasoline taxes paid in California, federal social security taxes taken from their paychecks, railroad retirement taxes, contributions made for retirement annuities, passport fees, postage, federal income taxes for prior years, hunting or fishing licenses, special assessments, personal living or family expenses, personally owned automobile expenses or depreciation, losses on personal residences sold, or all-may paid.

Taxpayers this year MAY deduct: California unemployment insurance taken from their paychecks, State of California income taxes paid in 1940 for prior years, all personal property and all real property taxes levied on them and paid by them, cost of automobile license plates, union dues, California use tax, interest paid on all installment contracts and borrowed money, contributions to recognized charities incorporated in the United States, admission taxes if ticket stubs are retained, taxes on safe deposit boxes, taxes on club dues or initiation fees, and traveling expenses incurred in their employment but not in traveling between home and place of business provided they were not reimbursed for such expenses.

No duplicate copies are needed this year, Collector Rogan added, and only the original is filed. Married couples living together on the last day of 1940 may file joint returns or separate returns as they choose, the same as heretofore.

Taxes may be paid in full, or on a semi-annual or quarterly basis, Rogan stated, but the first payment must be made by March 15.

Three special telephone operators have been assigned by Rogan to handle requests for tax forms. Local residents who desire forms mailed to them should call Madison-7411, STAtion 880, 881, or 882.

State Holds Lead as Nation's Biggest Producer of Gold

SACRAMENTO (U.P.)—California's gold and silver production declined during 1940, but the state held its lead as the nation's biggest producer of the yellow metal, the bureau of mines of the department of interior revealed today.

The quantity and value of gold decreased two percent and that of silver 12 percent, but production of each of the metals was higher than the previous year. The decrease followed an almost uninterrupted boom beginning in 1930, the bureau said, and attributed it to several factors, among them idleness or reduced operation of leading gold producers. Preliminary estimates placed gold production at 1,408,700 fine ounces, valued at \$49,304,500; silver, 2,235,000 fine ounces, valued at \$1,589,333.

The cost of operating an automobile has decreased about 50 percent since 1926.

Got Your \$65.97?

If you have \$65.97, you have your fair share of the cash circulating outside the federal treasury and reserve banks—a total of \$8,732,886,989. A cynic may complain that he'd have his share if Christmas shopping hadn't cleaned him last month. But the fact is that on Dec. 1, before the national holiday spending spurge, the total cash in American pocketbooks was \$210,000,000 less than now—or \$1.66 less per person!

Proving once more, if proof is needed to convince cynics, that when clerks are busy and merchants' stocks move and customers crowd stores, everybody soon has more money in pocket. Anyway, if you have more than \$65.97, fortune favors you and you are to be congratulated — and if you have less, there's your ready-made goal for 1941. Keep up with the Joneses! Get your \$65.97!

Chocolate Apricot Dessert Cake
2 cups sifted cake flour; 2 teaspoons double-acting baking powder; 1/4 teaspoon soda; 1/4 teaspoon salt; 1/2 cup butter or other shortening; 1 1/2 cups sugar; 2 eggs, unbeaten; 3 squares unsweetened chocolate, melted; 3/4 cup milk; 1 teaspoon vanilla; 1/2 cup cooked, dried apricots, drained and coarsely cut; 3 tablespoons confectioners' sugar; 1/4 teaspoon vanilla; 1 cup cream, whipped.
Sift flour once, measure, add baking powder, soda, and salt, and sift together three times. Cream butter thoroughly, add sugar gradually, and cream together until light and fluffy. Add eggs one at a time, beating thoroughly after each. Then add chocolate and blend. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add vanilla and apricots, mixing thoroughly. Bake in two greased 9-inch layer pans in moderate oven (350° F.) 30 minutes. Add confectioners' sugar and vanilla to whipped cream. Spread between layers and on top of cake. To decorate, dip ends of apricot halves in melted chocolate and arrange on top of cake.
