"YOUNG NAVIGATORS" . . . The best pictures of children show them absorbed in play. Photographer Elise Voysey of Bayville, N. Y., paved the way for this fine summer shot by giving her young models two toy boats. When they waded out to sail them, she snapped this unposed picture. A prize-winner in Popular Photography's 1940 \$5,000 Prize Photo contest, it was selected as the "Picture of the Month" in the August issue of the magazine. Entitled "Young Navigators," it was taken with a 2 1/4 x 2 1/4 Super Ikonta B and f2.8 Zeiss Tessar lens. The exposure was 1/1000 second at f8 with a medium yellow filter, on Agfa Superpan film.

Stewart Edges Out Steers to Win Junior and Senior N.A.A.U. Jumps

Bill Stewart added his name to the list of Torrance athletes who have won national prominence last Saturday and Sunday when he won both the junior and senior high jumping championships in the National A. A. U. meet at Philadelphia.

On the first day he won the junior event with a leap of 6 ft. 8 1/2 in. Sunday he set a new record of 6 ft. 9 1/2 in. and was judged winner of the leap over Les Steers, famed Oregon jumper, because he cleared that height with fewer misses than the Oregonian who also made the new mark.

The 6 ft. 9 1/2 in. record equals the listed world's record, which has since been shattered by Steer's 6 ft. 11 in. jump, and better the N. A. A. U. record of 6 ft. 8 1/2 in. which was set by Steers last year.

Stewart went east with the Southern California A. C. team but friends here said he competed as "unattached" despite

Live and Enjoy Fourth of July, Red Cross Says

An appeal to Southern Californians to "live and enjoy" your Independence Day is being sounded by 3700 Red Cross chapters throughout the United States with a warning to "take care" and offering a series of don'ts over the week end, Mrs. R. R. Smith, chairman of the Torrance chapter pointed out today.

"Fourth of July week end will be more hazardous than in previous years because of increased congestion on the highways and at resorts and recreational centers resulting from a great amount of people returning to work through National Defense activities," Mrs. Smith said.

"Traffic death figures for the first three months of 1941 released by the National Safety Council reveal that if the present rate continues, the total for this year will surpass 40,000 deaths—an all-time high. Highway fatalities last year totaled 34,000—an increase of seven per cent over the total for 1939." Red Cross don'ts as advised by Mrs. Smith, follow:

Don't only see to your own safety, but you must anticipate the carelessness of others. The mistake of one motorist may result in fatality to those who may be obeying all rules of the road.

Tips on Safety
Get an early start for the holiday week end.

Make a thorough check-up of your tires, brakes, lights and steering gear.

Keep an eye on "the other fellow."

Be sure luggage piled in the back of your car does not obscure rear vision.

Sacrifice that last hour at the beach and leave for home before the crowd.

Remember that driving after dark is many times more hazardous and after-dark accidents are frequently more serious. Dim your lights properly.

To swimmers: Enjoy your water sports at patrolled beaches.

Bear in mind that expert swimmers can be drowned from cramps caused by swimming too soon after eating.

Remember that canoes and boats demand skillful handling. They are death traps for the novice.

Avoid firecrackers. They cause more injuries than thrills.

Deaths from drowning each year average approximately 7,000, Mrs. Smith pointed out. This year's loss through accidental deaths and injuries will be largely the result of carelessness and ignorance, she added.
