### Lax Laws Permit Presence Of Dangerous Alien Spies

FOR years thousands of alien communists and criminals have mocked American laws. Four out of five escape deportation proceedings entirely. Of those ordered banished, three-fourths remain free. An expose written by newsmen Donald E. Keyhoe, which appears in the July issue of Cosmopolitan magazine brings to light these startling facts and poses this question to every American interested in safeguarding the nation in these perilous times: "Why don't we deport criminal aliens?"

Every month, Keyhoe asserts, more alien criminals come out of our prisons. Immigration officials take them into custody, if their crime is such as to call for deportation. Hearings are held; they are ordered deported, are briefly detained—and turned free, three times out of four. Although a 1920 act specifically excludes all aliens who advocate or support in any way opposition to organized government, this statute has been repeatedly ignored.

In this way thousands of Communists are acting as agents of the Soviet government in this country. Because they have been denied citizenship by Russia for the express purpose of keeping them active in the United States, they have become labor agitators, organizing "goon squads" to beat up American workmen who oppose Communist plans. Keyhoe points out in his article that through bribery and threats of exposure, they have secured the active service of many another alien criminal.

Because of laxity in enforcing immigration laws, Secretary of Labor Francis Perkins was brought to impeachment proceedings in 1938. She was acquitted, but sharply reprimanded and the Immigration Service has since been transferred to the Department of Justice. Still, Keyhoe avers that the entire system needs tightening.

A recent government estimate reveals that there are at least 100,000 aliens illegally in this country. Some experts triple this, but in this group are known Nazis and Fascists sent here to swell the Fifth Column. Many of these may not be deported because of hazardous sea travel. Others remain here because their countries refuse to accept them.

"New legislation, no matter how tight, will not be enough unless government policy is stiffened all down the line," Keyhoe concludes. "The infiltration has already begun. To eliminate this menace, our system of alien control will be taxed to the limit. Unless that system is purged relentlessly of enemies, alien spies will continue to mock our laws."

### Boys Burned in Shower of Flaming Gasoline

Two young spectators to a gasoline fire, assertedly started by a seven-year-old boy, were burned, one of them seriously. Fourth of July night when a five-gallon gasoline can exploded in the vicinity of Carson st. and Greenwood ave. No fireworks were involved in the mishap, it was reported.

Jimmie Standifur, 13, of 1731 Greenwood ave. suffered second and third degree burns about his body and left arm, and Edwin Parr, 11, of 1721 Greenwood ave. was less seriously burned when the gasoline exploded and showered them. They were watching Russell White, 7 of Carson street playing with a small can containing gasoline and a fire.

According to Edward M. Standifur, father of Jimmie, the White boy then got the larger gas container with more of the volatile fluid in it and started to "make a bigger fire." Although the gasoline can exploded in his hands, he escaped the burning shower and only received minor burns.

Jimmie Standifur, his clothes blazing, started to run and then he remembered that was not the right thing to do so he flung himself down and started rolling in the sand. His presence of mind probably saved his life because he put out the fire. Both Jimmie and Edwin Parr were treated at Torrance Memorial hospital.

### Vegetable Salads For Summer Meals

By Katharine Fisher, Director, Good Housekeeping Institute

Nutritionists tell us to "work in" a leafy, green or yellow vegetable, raw or cooked, once a day, sometimes twice. What better way than via the salad bowl? Salads or raw shredded cabbage, raw slices of carrots or turnips, diced tomatoes, celery, cucumbers, scallions, etc., temptingly seasoned with salad dressings, give you all the vitamins

and minerals raw vegetables offer. As for cooked vegetables, into many refrigerators go leftover cooked peas, limas, string beans, carrots, etc. If you toss them with crisp salad greens, raw vegetables, a bit of minced onion, diced green or red pepper, or minced parsley (peppers and parsley are both rich in vitamins A and C) and salad dressing, you can have a salad bowl as varied as you please. Fresh herbs, such as tarragon, chervil, dill, and sorrel, uplift the salad, too. And if a hearty version is more to your liking, just add some grated, crumbled or sliced cheese, diced hard-cooked eggs, meat, fish, or chicken—home-cooked or canned.

In making salad dressings frequently use lemon juice as a seasoning, for it adds vitamin C. Try, too, adding minced onion, chutney, chives, fresh or dried herbs, or sliced olives to bottled or homemade salad dressing. Jellied salads fit especially well into hot-weather meals. They can be made and safely tucked away into the refrigerator early in the day, or the day before. You can buy packaged gelatin aspic, to which you can add vegetable, meat, or fish mixtures.

### Mattoon Debt Lifting Celebration Planned for Alondra Park District

To celebrate the lifting of Mattoon Act assessments from the Alondra Park district, an appreciation dinner and bond-burning ceremony is being planned for the late summer, members of the Torrance city council were informed in a letter last Thursday afternoon from Secretary Pat MacDonnell of the Gardena Valley Chamber of Commerce.

He asked Mayor Tom McGuire to serve on a committee and name two other Torrance residents who will assist in arranging the celebration. Community leaders of Redondo Beach, Gardena and Lawndale will also serve on the committee which will hold its first meeting in the near future.

MacDonnell informed the council that full and complete liquidation of the Alondra Park debt is in progress. He said the Alondra Park Taxpayers' association had worked for two and one-half years to this end and was now ready to end its services. However, there is a matter of a \$600 debt incurred by the association and the Gardena appealed for a donation of \$100 from the Torrance Council to help liquidate this.

The council indicated it would make such an appropriation providing an itemized bill showing how this debt was incurred was submitted for study.

### Tommy's Avoid Girls in Khaki: Tire of Uniforms

LONDON—(U.P.)—Complaints that their uniform is a hindrance to romance and scares soldiers away are made by some of the auxiliary territorial service in a big Northern command training center. "Soldiers seem to think that the A. T. S. is either the old maid's last hope or else that to be seen out with us indicates that a soldier has been unable to get a girl outside the barracks," said one of the girls. "What do the soldiers say?"

"We want girls who are not in khaki," said one of them. "We see too much uniform. The A. T. S. is a part of the army just as much as the officers and clerical staff are part of it, and we treat them accordingly. "Just as few men fall in love with the girl who works in the same office as themselves, so the soldier wants to get his girl friends from a different atmosphere from that in which he spends his working day."
