### FIRST CHURCH OF CHRIST, SCIENTIST

1208 El Prado.

This verse from Jeremiah, "Heal me, O Lord, and I shall be healed; save me, and I shall be saved; for I have not art my praise" is the Golden Text in the Lesson-Sermon on Sunday in all Churches of Christ, Scientist. The question, "Are Sin, Disease, and Death Real?" is the subject of the Lesson-Sermon.

Among the Bible citations is the parable by Jesus from Luke: "Two men went up into the temple to pray; the one a Pharisee, and the other a publican. The Pharisee stood and prayed thus with himself, God, I thank thee, that I am not as other men are, extortioners, unjust, adulterers, or even as this publican. I fast twice in the week, I give tithes of all that I possess. And the publican, standing afar off, would not lift up so much as his eyes unto heaven, but smote upon his breast, saying, God be merciful to me a sinner. I tell you, this man went down to his house justified rather than the other."

Selections from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, state: "Only those who repent of sin and forsake the unreal, can fully understand the unreality of evil." "To assume that there are no claims of evil and yet to indulge them, is a moral offence. . . . When the Publican's wall went out to the great heart of Love, it won his humble desire."

## Episcopal Activities In Full Operation Under New Vicar

Activities at St. Andrew's Episcopal church are now in full operation with the arrival of the new vicar, Rev. Paul Moore Wheeler. Organizations will meet as scheduled. Scout Troop No. 24 will meet tonight at 7 o'clock at the parish house to organize and renew its charter.  
Monday and Tuesday, Oct. 13 and 14, Rev. Wheeler will be absent from the city attending the annual clergy conference of the diocese at Carlsbad. He will return in time for the first fall dinner-meeting of the Episcopal Men's club next Tuesday evening at 6:30 o'clock.

Sunday services will be Holy Communion at 7:30 o'clock, Church School at 9:30, Morning prayer and sermon on "The Nature of Man as Christianity Teaches" at 11 o'clock.

## Ford Offers Choice of "6" or "8" for '42

## New Models On Display At Dealers

America's newest, most modern six-cylinder engine . . . Or, the rugged, powerful V-8 of proved economy . . .

Two optional 90 horsepower engines! That's the headline news about the 1942 Ford cars, which made their public debut this week in the showrooms of Schultz and Peckham, local Ford dealers at 1514 Cabrillo avenue, Torrance.

First "six" ever introduced by the Ford Motor Co., the new power plant has been a leading topic of speculation for many months. It can now be revealed that it is comparable to the famous V-8 in performance, with the added attraction of even greater economy.

### Beautiful Styling

While the V-8's new running mate was drawing a large share of attention at the first showing of Fords for '42, local motorists found that the man who just recently completed the world's first plastic automobile body, had incorporated many advanced innovations in his new cars.

Exterior styling of the 1942 Ford is entirely new. A low, wide grille is the dominant feature of the new frontal design, which gives the car a larger, more massive appearance. Wider fenders, flowing smoothly into body lines, accentuate the general streamlined effect from front to smartly-tapered rear. Bodies flare out to completely conceal running boards, and headlamps and parking lights recess into fenders.

Interior treatment finds a new high in luxury of appointments and comfort. Use of leather and cloth upholstery in combination gives an appealing two-tone effect. The re-designed instrument panel is exceptionally attractive, with new uses of plastic achieving striking beauty, particularly in the combination of radio speaker panel and large circular dials containing the speedometer and clock.

### Have Greater Safety

Engineering advances have kept pace with the advanced style innovations in the new Ford, the local dealer pointed out. There's a softer, more stable

In dealers' showrooms throughout the Southland this week, the public gave an enthusiastic response to the debut of the 1942 Ford . . . strikingly different in design, and now available for the first time in Ford Motor Company history with either the world's most modern six-cylinder engine or the famous V-8 motor. Lower and wider, the new Fords are gracefully styled from massive front end to smartly-tapered rear. Wider fenders flowing smoothly into body lines, encased headlights and concealed running boards, add to its pleasing blend of beauty and smartness. Dominant feature of the new frontal design is a wide grille of bright metal, accentuating its larger, heavier appearance. Inside, too, the new Fords reach a new high in luxury of appointments, offering two-tone upholstery combinations in Super Deluxe models such as the popular Tudor sedan model shown above, and an exceptionally attractive instrument panel. A long-range research program which prepared for just such problems as the present shortage of certain materials, enables Ford to assure even finer quality, performance and durability in '42.

ride. This, he said, is made possible by such improvements as wider car tread, longer springs and a double-action hydraulic shock absorbers all around.

There's greater safety in the new Fords, too. The cars have a lower center of gravity; and stabilized, easier steering, from an improved torsion bar, which, when combined with a track bar, helps to keep steering mechanism in perfect alignment under all conditions. The danger of skidding has been minimized by a 60-40 distribution of braking pressure between front and rear wheels.

There's added driving comfort—the result of easier action in the finger-tip gearshift, clutch pedal and hydraulic brake system, combined with controlled ventilation throughout, and exceptionally good visibility. There are engineering advances on the 1942 engines which result in

## Church Attendance Shows Gain Here

Torrance Church of Christ had a record attendance of 46 last Sunday. Prior to Sunday, the largest attendance for this church, which has been meeting regularly only one year, has been 40.

Three times recently the total attendance has reached 40, but the average for both services on Sundays is about 30. Tuesday night services are attended by almost that number because of the interest created by discussion of current problems of the Christian life.
