Each Week Race Gets Better

There are so many thrilling places to go around in the South Bay and interesting people, we've selected the list below to gather facts on: Earl Christensen, Charles L. Sivills, Thos. J. King, Beulah C. Knox and Owen L. Ridenour.

Be up-to-date, read "People You Should Know" weekly, for we're going to tell what woman talks the most; which professional woman is the leader and which merchant has his hobby hunting bull-frogs.

Ida Thompson romps home first today and captures the \$2 stake and beat a fast field of Maurice Foreman and Lucille Stroh and others. However, they all get in the money for a dollar each. Wonderful race, folks!

MOVIE STAR JOINS U.S. NAVY

Ensign Wayne Morris Seeks Wings

Wayne Morris, recent star of "I Wanted Wings," became a member of Uncle Sam's Navy in May, 1941, when he was appointed to the rank of Ensign.

When asked what he thought of the United States Navy, Morris said, "I think every man who is considering joining a military service should look into the 'chance of a lifetime' which the Navy and Naval Reserve offer to get into the big-pay field of the future aviation. In the Navy you can attend the finest flight training schools in the world, and receive in-

struction from Navy pilots who introduced dive bombing, aircraft carriers and catapult take-offs to the rest of the world. Also, there are opportunities in Naval Aviation for men who don't want to fly. They can be trained as aviation mechanics, metallsmiths, photographers, observers, or they can receive instruction in many other trades. It's a great life in the Navy."

Ensign Wayne Morris is pictured here in his line of duty as a member of the Naval Aviation Cadet Selection Board at the Long Beach Naval Reserve Air Base.

Special Training Open to CCC's

Under a newly devised plan CCC youths located in any camp in California may be transferred, after a 90-day initial service period, to special camps in order to take a specific training course that will assure them of immediate gainful employment upon completion.

Heretofore, transfers from one camp to another were difficult to effect because of inter-district regulations and the fact that all four former California CCC districts consolidated under one district with headquarters at Sacramento, such procedures are now merely routine and will be approved upon the youth demonstrating his ability to assimilate the training desired.

Among the special courses available and for which immediate placement in industry is made are aircraft and sheet metal work at Camp Vista in Southern California, ship carpentry at Camp Gilroy, ordnance inspection at Camp Crescent Bluff, shipfitter's helper, sheet metal and radio at Camp Sebastopol.

This training is available to all young men with certain qualifications and the local CCC agent has full information on the subject. In this area the local CCC agent is Clark Marshall whose address is 701 E. Jefferson Blvd., Los Angeles.

Lustrous Paint For Army Vehicles

Average motorists want their automobiles as shiny as possible, but not the Army.

Paint now used on army vehicles is entirely lustrous, making it difficult to see a truck from the air or any distance on land. Relatively rough olive drab paint does the trick, for a minimum of light is reflected.

PLENTY OF TRUCKS

Only 22 months ago the Army had but 14,000 motor trucks. Now it gets twice as many each month. Requirements already in sight amount to 300,000 units.

Charge Against Motorist Dropped In Death Case

Lack of evidence to show that he was negligent resulted in the dismissal of a negligent homicide charge against Simon Axenty, 49, of Redondo Beach, following a preliminary hearing on last Friday morning.

Axenty had been held in connection with the death Nov. 6 of Mrs. Rhoda Holland, 68, of 1750 Martina ave., of injuries received when she was struck by the Redondo car on the night of Nov. 1 at the intersection of Arlington ave. and 218th st.

There were no eye-witnesses to the accident. Axenty took the stand in his own defense and asserted he was only traveling about 25 miles an hour, did not see Mrs. Holland until she loomed up in front of his car about eight or 10 feet away and he applied his brakes at once.

Carburetion Expert Will Continue Work With U. S. Army

Tony Moine, former Torrance resident at 22400 S. Bonita ave., returned here to visit his friends and relatives last week as a kind of leave-taking. He plans to enlist in the Army this January.

Moine left Torrance in June 1940 to take up a scholarship in automotive engineering offered by the Carter Carburetor Co., of Detroit, which he won in competition with automotive students from all of Southern California.

Moine received the training at Frank Wiggins free public trade school in Los Angeles, which won him the scholarship. After it ran out, he was immediately hired by the company as a carburetor expert and he will be assigned as a carburetion instructor when he joins up with Uncle Sam this January.

Taylor's Announce Daughter's Engagement

Mr. and Mrs. Joe Taylor of 722 Portola ave., Torrance, have announced the engagement of their daughter, Lorabell, to Mr. Clyde Woods of Long Beach.

Miss Taylor, who graduated in June from Narbonne high school has set Feb. 15 as her wedding day. The groom, who graduated from Compton Junior College, is employed by the Shell Oil Co., at Long Beach. At present Miss Taylor is a student at Frank Wiggins Trade school.

NAVY FLYING POPULAR

More aviation cadets enter flight training every two weeks than entered in any entire year since 1935.

The first enclosed cabin airplane was built in 1912 by Bleriot, and was flown by Legagneux.

Brand New! SURE WAY TO GET FLAKY PIE CRUST!

CRISCO'S NEW SURE-FIRE METHOD . . . EASY AS A-B-C

(A) Now—no guesswork—exact measurements

Double-Crust measurements: Mix 2 cups of sifted flour with 1 teaspoon salt in mixing-bowl. Put 1/2 cup of this flour into a small bowl and mix in 1/4 cup water to form a paste.

(B) Next—the blending step—easy with Crisco

To the remaining 1 1/2 cups of flour add 1/2 cup Crisco (creamy, easy-blending). Cut in Crisco (with knives, fork or blender) till the pieces are the size of small peas.

(C) Here's the final step—to Flakier Pies

Add flour-paste to Crisco-flour mixture. Mix thoroughly until the dough comes together and can be shaped into a ball. Divide in half—roll out both crusts about 1/8 inch thick.

ONE-CRUST MEASUREMENTS

Follow above method but use these measurements: In Step (A) use 1 1/2 cups flour and 1/2 teaspoon salt. For four-paste use 1/2 cup flour and 3 table-spoons water. In Step (D) use remaining 1 1/2 cups flour and 1/2 cup Crisco.

\*ALL MEASUREMENTS LEVEL.

IT'S HERE! CRISCO'S NEW PASTRY METHOD!

IT'S SURE-FIRE! . . . Ends the 2 chief causes of tough pastry—gives you sure success!

Can you always count on your pie crust to be so tender and flaky that it breaks at the touch of a fork? Or do you sometimes get tough pastry and wonder why?

Take heart! . . . Crisco comes to your rescue with an amazing new pastry method that's SURE-FIRE for flaky, tender pastry!

ONE NOW—the 2 big causes of tough pastry . . . too much water in the dough—and over-handling! Till now you've had to guess how

much water to use, and it's so easy to add a bit too much. Then your dough is sticky . . . hard to handle! Or do you sometimes get tough pastry? You get tough pastry!

But now—Crisco's new pastry method ends all this worry! Easy as A-B-C! Sure! . . . tells exactly how much water to use. Your dough's just right—not sticky, not crumbly—so easy to roll out! You aren't tempted to over-handle it.

Flaky pie—for SURE!

RIGHT NOW . . . clip out the recipe at the right and bake your folks a pie. Now be sure to use Crisco—and only Crisco! Thanks to Crisco, you're sure now of flaky, tender, delicious pie crust!

WANT CRISP, DIGESTIBLE FRIED FOODS? THEN FRY THE CRISCO WAY!
