

Council to Visit Brick Plant

In answer to Attorney William F. Barta's renewed request for a re-hearing on the application of the Coast Brick Company for a variance of the city zoning ordinance to permit continued operations at the North Torrance plant, the city council decided Tuesday night to conduct a field inspection of the property with the owners and Barta tomorrow afternoon at 5 o'clock.

Mayor Tom McGuire said the City Planning Commission has already made such an inspection. Barta informed the council that his clients are proposing several changes in their plant which will be explained at the time of the council's visit. The Coast Brick Company was denied a variance several months ago and recently instituted a Superior Court suit to force the city to grant a re-hearing on the case. This suit was subsequently dismissed when local officials indicated that the firm would be given another opportunity to present its case.

U. C. MAN SAYS NEW MUSIC TRENDS IN MAKING

LOS ANGELES.—New trends in music are beginning to take shape, says Dr. George Stewart McManus, professor of music and organist on the Los Angeles campus of the University of California.

Dr. McManus notes an increase in music appreciation and in the amount of request numbers he plays. The demand for Tschalkowsky's Fifth Symphony, excerpts from "Tristan," "The Lost Chord," "March Slave" and Bach, even by burly college boys, is an indication of a kind of musical awakening, he says. "A greater number of students apparently are realizing that they, too, as listeners, are taking an important part in the interpretation of music," says Dr. McManus.

Tank Army Has Starring Role In "Bugle Sounds"

The U. S. Army plays a spectacular starring role with Wallace Beery at the Plaza theatre in Hawthorne in "The Bugle Sounds," story of the new mechanized forces now showing.

The result is a picture of realistic action, with the regular army enacting its stirring role in the contemporary plan of defense. Thousands of tanks, simulating wartime conditions, plunge across the screen. Dive bombers drop their "eggs" and soldiers run, ride and crawl for cover. The shots were filmed under supervision of army officers assigned for the purpose.

The picture presents Beery as a veteran cavalry sergeant, thoroughly disgusted when horses are abandoned in favor of tanks. His objections amount to insubordination when a tank runs wild in flames, crashing through a stable to mortally injure his faithful horse. His colonel and friend, Lewis Stone, attempts to pacify him, but the sergeant has until he is given a court's martial discharge.

This, however, turns out to be a ruse arranged in order that the sergeant may work his way into the good graces of a band of saboteurs. When they plan to wreck a shipment of tanks, he captures them and is given with new honors medals for the collection already gleaming on his broad chest.

School Musicians Score High In Art Festival

Scoring 86 points for a "superior" rating, the Torrance high school band participated in the Harbor Festival of Arts last week. Judges in the district contest came to the local high school to hear the band play three test numbers. The band was directed by Louis Sauter.

Last Saturday morning a number of Torrance high school students went to Dana Junior high school in San Pedro to compete in the individual instrumental competition of the Festival. Three received "outstanding" ratings and one was judged as "high rating" for their performances. Marvin Jarrett won first place in the junior high school division for trumpet players while Paul Pierson received "outstanding" recognition with the same instrument in the senior high school division. Daisy Blackburn, competing as a trombonist in the senior high school competition, received an "outstanding" rating and Harold Gansert won high rating in the double bass competition for senior high school students.

Others who competed from this city in the senior and junior high school competition were Eugene Egerer and Richard Amers, violinists, and Jean Yoder, piano accompanist. Sauter served as one of the judges in the instrument division of the Festival of Arts.
