READ WHY YOU'LL FIND LOW CEILING PRICES AT A&P

FIRST—WHAT IS A CEILING PRICE? A store's ceiling price on any item covered by the law is the maximum price charged by that store for the item during March, 1942. Because every A&P price has been a very low price month after month, our ceiling prices are naturally very low. For some time past despite many advancing wholesale market prices, A&P did not advance retail prices until absolutely necessary. That's why so many of our prices did not require adjustment when the law became effective.

SECOND—WHY CEILING PRICES ARE NOT THE SAME IN ALL STORES. The regulations clearly state that each store must establish its own price ceiling. For example, if store "X" charged 17c for Jones Brand Tomatoes in March and store "Y" 15c for the same article, during March, then "X" can charge no higher than 17c—and "Y" no higher than 15c. Prices of commodities affected by the law have been adjusted wherever necessary and we have fully complied with the new regulations in every respect.

WHY A&P CEILING PRICES ARE LOW—For years we've waged war on needless waste in distributing food—cut out unnecessary expenses—eliminated FRILLS. And the savings made have been shared with our customers by giving them low prices. The new ceiling price regulations will not alter in any way our policy of bringing you the finest foods the markets afford at our lowest possible prices. You are invited to visit your nearest A&P Super Market today—Come in, shop and save with confidence!

SANTA FE IS MAINTAINING EFFICIENT TRANSPORTATION FOR YOUR JOURNEYS—LOCAL OR TRANSCONTINENTAL

Santa Fe is now moving many men and much war material. We must prepare to do still more in the future. That job comes first, now and always. But behind it we pledge every effort to maintain convenient regular service for civilian use. For transportation, local or transcontinental, you will find a complete range of service among the Santa Fe streamliners and many other fine trains.

A Friendly Suggestion. You can help maintain regular civilian rail transportation in these ways: Make reservations as early as you can. Buy your tickets at the same time if possible. Round trip tickets save time, worry, and money. Travel is heaviest during July and August, week-ends and holidays—pick other months and days if convenient.

THE SANTA FE RAILWAY IS A CALIFORNIA INSTITUTION

SHIP VIA SANTA FE. War needs have first claim on every Santa Fe facility—subject to that claim, Santa Fe will continue to serve all its shippers promptly and satisfactorily.
