Now the Nation Turns Away from Buying "On Time"

Each year, millions of dollars worth of merchandise were sold "on time" — bought against income hoped for, but as yet unearned. Now we have returned, as a nation to buying for cash. Penney stores have never sold anything "on time." Our cash policy is one of the foundation stones of our business!

Scriptures Given Soldiers

Maj. Gen. Kenyon A. Joyce, left, commanding general of Ninth Corps Area at Salt Lake City and Colonel Julius J. Babst, Corps Area chaplain, inspect copies of Scriptures to be issued free to all soldiers asking for them.

Homes Registration Office Appeals For Local Listings

A Regional Homes Registration office, one of more than 250 in the major defense plant areas of the nation, has been opened at 127 West Eighth st., San Pedro, under the sponsorship of the National Housing Agency. E. M. Cooper is in charge and F. M. Hill is director for the Harbor District.

The major objectives of these offices are (1) to aid defense plant workers and families of the Army and Navy personnel to obtain housing in the quickest and most orderly manner; and (2) to furnish the National Housing Agency periodical reports of the status of housing conditions in their territory. It is partly with this information that the National Housing Agency is able to determine where and what type of additional housing is necessary to expedite the war production work.

Jointly Sponsored Conservation of rubber and increasing transportation problems is another great concern of the Homes Registration Office. As the rubber shortage increases, this office undoubtedly will have to be the medium whereby workers that are now living at considerable distance from their work can be relocated in a closer proximity.

Want Property Listings This is not a real estate enterprise and there are no fees attached, but is a war production measure and it is your duty as a citizen that if you have any property that is habitable, to notify the Homes Registration office at once. If you are a real estate firm, your listings are solicited so as to aid a contact between the broker and the homeseeker.

Turn in your listings today, whether a furnished or unfurnished house, a room with or without board.

SACRAMENTO — (U.P.) Army authorities charged with truck convoy operation on California streets and highways this week asked for more and greater cooperation by the motoring and pedestrian public to see that convoys get thru on schedule and without accident.

The Army said several recent incidents in which accidents were narrowly averted led to the request. It was reported that motorists and pedestrians got in the way of convoys and delayed Army operations.

Convoy movements are increasing steadily, say Army officials. Police and military escorts are provided to clear the way thru congested areas. Convoys are routed and scheduled so as to avoid rush hours, heavy traffic, business districts and school areas. Army authorities declared every precaution is taken to avoid delay and accident.

To get public cooperation, the following rules pertaining to convoy operation have been suggested by Army authorities:

- 1—Don't break thru Army motor columns.
- 2—Don't pass and then try to cut in front of convoys. The convoys are deceptively fast.
- 3—When you pass, don't cut

'Honor Roll' Contains 780 Names

These are 780 names in the "HONOR ROLL" published on the preceding page—344 from Torrance and Wadsworth and 336 from Lomita, Harbor City and Rolling Hills.

This is a splendid turnout of manpower for the communities and this newspaper is glad it has taken the time and made the effort to keep such an alphabetical list compiled. We thank all those who notified us of errors, omissions or made corrections since the "HONOR ROLL" was published for the second time March 26.

We invite all readers to check the list again for any other changes which may be necessary to complete the list and have it accurate.

This service directory is being kept "standing" in type for future publication. Its appearance should be welcomed by all interested in our boys who are in the front lines of the nation's offense against the Axis powers.

This newspaper respectfully invites the tribute of its readers to those men who have paid the supreme sacrifice that our freedom shall continue to live.

The number of men in the various franchises of service are:

Torrance	Lomita
Army	192
Navy	125
Marine Corps	96
Coast Guard	142
Naval Reserve	3
Army Reserve	11
Marine Reserve	10
R. C. A. F.	9
Navy Nurse	0
State Guard	2
TOTAL	344
	336

Civilians Asked To Help Speed Army Convoys

The Army said several recent incidents in which accidents were narrowly averted led to the request. It was reported that motorists and pedestrians got in the way of convoys and delayed Army operations.

Convoy movements are increasing steadily, say Army officials. Police and military escorts are provided to clear the way thru congested areas.

Convoys are routed and scheduled so as to avoid rush hours, heavy traffic, business districts and school areas. Army authorities declared every precaution is taken to avoid delay and accident.

To get public cooperation, the following rules pertaining to convoy operation have been suggested by Army authorities:

- 1—Don't break thru Army motor columns.
- 2—Don't pass and then try to cut in front of convoys. The convoys are deceptively fast.
- 3—When you pass, don't cut

Inmates of State Institutions Total 29,426

Total population of all state institutions excluding prisons and industrial schools on June 1 was 29,426. Normal capacity of the institutions was 26,292, representing an overcrowded condition of 11.9 per cent of capacity.

Police-Army Play Softball on July 7

The newly-organized Torrance Police Bombardiers will make their debut as a softball team next Tuesday night, July 7, against an Army team from Inglewood. The game will start at 7:30 o'clock at the Torrance city park diamond.

back into convoy lane.
4—Obey traffic police—military and civilian.
5—When you hear a siren or see a red light on an approaching vehicle, clear center lane or intersection.

YOU CAN'T MISS . . .

Finding the Record you want at The National's Record Library.

FIREWORKS AND THE WAR

General DeWitt, commander of the Fourth Fighter Command, has requested that we dispense with fireworks this July 4th, and has put his trust in us to help the war effort in this way. Let us prove worthy of this trust by not using for our amusement the explosives needed by the armed forces for our protection and survival.

County Fire Warden Spence D. Turner points out that, in addition to the usual hazards of needless fires, and injury to persons discharging, or to innocent bystanders, there are these urgent reasons why fireworks should be banned during this emergency:

They might be used by saboteurs or fifth columnists for signaling purposes; fires caused by their discharge would endanger the resources essential for the preservation of our nation.

A recently adopted county ordinance prohibiting the sale, use or discharge of fireworks of any size, kind, nature or name, will be strictly enforced. So let us cooperate with the officers of the Army and the Fire Service, have a "Safe and Sane Fourth," and keep out of trouble.

SIGNS ATTEND SLOWING UP OF U. S. POPULATION

LOS ANGELES.—That the population of the United States may become stationary within the next few decades is the warning sounded by Dr. Constantine Panunzio, assistant professor of sociology on the Los Angeles campus of the University of California.

Our birth rate has dropped from 20 per thousand in 1928 to 17 in 1938. In the 1850's it was 42 per thousand and has been declining steadily. The causes, says Dr. Panunzio, are obscure. Immigration cannot be held responsible, as the decline was established when immigration was in full tide.

The principal decline in the rate of increase has been in city population. The 1940 census shows that 532 cities have actually lost population. Reasons for the retardation of city growth, Dr. Panunzio states, are limits to sanitation, communication, transportation, housing, etc.

An important aspect of the change, he declares, is that now 28.5 per cent of the people are 45 years and over, as compared with only 16 per cent in 1870. "Aging" of the population affects labor conditions, defense, consumer habits, education, public state of mind and many other things.

Self-medication is dangerous

The human body is the most complicated mechanism ever created. Not all of its processes are thoroughly understood even by those who devote their lives to a study of them. It is not surprising, therefore, that persons without medical training who attempt to diagnose and prescribe for their own serious ills often do themselves irreparable damage. Have respect for your body. You can never get another. When illness comes consult a physician . . .

He is a specialist in his line just as we are in the business of filling his prescriptions.

WAR COSTS MONEY— BUT LIBERTY IS PRICELESS

Help Win the War with the Money You Save

Of course freedom is expensive. The highest price tags are always attached to the most precious items. And the cost of human liberty in blood and treasure is a staggering one. But to be able to speak and pray and think and vote the way we wish—did you ever hear anyone question the cost?

Some Americans are paying the cost with their lives. Others are buying as many Defense Stamps and Bonds as they possibly can—every day. Are you doing your share?

In order to provide every opportunity for the daily purchase of Stamps and Bonds, we're now selling them at each cash register in our store. Wherever you go, whenever you can, buy your share in our country's most precious possession—the Liberty, the Freedom of America!
