Women Meter Readers Will be on Job Soon

When some strange woman approaches your house in the near future don't jump to the conclusion that she is a book agent or someone asking contributions.

Before you say, "I don't want any today," better wait. She more likely will say: "Woman to read your meter."

When men began to leave for Army and Navy service, utilities started sending boys and one was a Harbor Cityan. But the help situation is getting worse. So women are now taking instruction to become meter readers. The light and gas companies, like other concerns, are feeling

the labor shortage and after all there is no reason able bodied women can't read meters.

Women are driving milk trucks, taxis and school buses and one grocer has a woman clerk who pinch hits on the delivery truck sometimes.

At a meeting of the Torrance Auxiliary Police Monday night in the city council chamber, it was decided by the 65 men present to hold similar instructive sessions on the first and third Mondays of every month, starting at 7 o'clock. The next meeting will be held Monday night, Nov. 2.

DELIGHT your family with these recipes for home-baked rolls

War times have revived interest in good plain cooking, and homemakers are beginning to do more of their own baking. There's nothing like the fragrant aroma of fresh homemade rolls or rolls baking in the oven to quicken already hearty fall appetites. And really, making your own rolls is easy, especially if you use the recipe for REFRIGERATOR ROLLS. It's just a bowl of dough. These rolls have a decided advantage over most yeast breads, because the dough can be made several days in advance, then shaped and baked as you want. Simply cover the dough, in one mass and store in the refrigerator. About 1 hour before you want to serve rolls, take the dough from the refrigerator; let rise about 30 minutes; knead and shape into rolls; and bake another 30 minutes. That's all there is to it.

REFRIGERATOR ROLLS

7 cups all-purpose flour
4 large, softening eggs
2 cups milk
4 tbsps. sugar
1 tbsps. yeast

Sift flour and measure. Heat milk. Place sugar, shortening, and salt in large bowl; add hot milk; stir until shortening is melted; cool to lukewarm; add 1 1/2 minutes. Add crumbled yeast; mix well. Add flour; stir until dough leaves sides of bowl. Cover bowl with damp cloth; let rise in warm place until light and double in bulk, about 2 hours. Punch down. Dough on lightly floured board; knead until dough is smooth. Mold into desired shapes. Place on greased baking pan. Cover with damp cloth. Let rise in warm place until double in bulk, about 30 minutes. Brush with sugar mixture of 1 part sugar and 2 parts milk. Bake in moderately hot oven (425° F.) 15 minutes, or until done. Makes about 8 dozen rolls.

To Store: Punch down dough after first rising. Cover tightly and place in refrigerator.
