The query "Is the Universe in constant Motion. Evolved by Atomic Forces?" is the subject of the Sunday Lesson Sermon in all Churches of Christ Scientist in the Golden Text from Acts reads: "Known unto God are all his works from the beginning of the world."

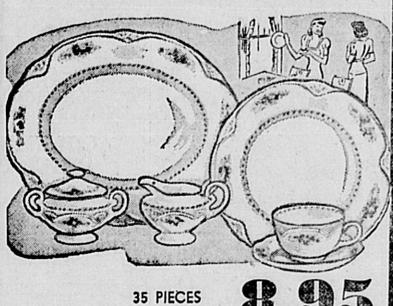

A Bible citation includes these words of the prophet Haggai: "According to the word that I covenanted with you when ye came out of Egypt, so my spirit remaineth among you, fear ye not. For thus saith the Lord of hosts: Yet once it is a little while and I will shake the heavens and the earth, and the sea, and the dry land; and I will shake all nations, and I will fill this house with glory, and in this place will I give peace unto the inhabitants thereof." An excerpt from the Psalms is also included: "The Lord sitteth upon the flood; yea, the Lord sitteth King for ever. The Lord will give strength unto his people; the Lord will bless his people with peace."

Mary Baker Eddy in "Science and Health and Key to the Scriptures" contributes these state ments: "The universe like man is to be interpreted by science from its divine Principle, God, and then it can be understood out when explained on the basis of physical science and represented as subject to growth, maturity and decay. The universe like man is and must continue to be an enigma. Spirit is the life substance, and con dition of all things."
