

Weston Leech and Cheyenne Girl are Wed December 29

Mr. and Mrs. Louis Ostlund of Cheyenne, Wyo., have announced the marriage of their daughter, Vivian Laverne, to Weston Vail Leech. The wedding took place at Cheyenne on Dec. 29, and the young people left immediately for a few days' honeymoon at Denver, Colo.

he became an employee of the United Air Lines, resided at the home address, 1630 Amapola ave. He is a graduate of Torrance High School and Compton Junior College.

During his college years he took up flying and was trained in the Civil Aeronautics School at Compton and Long Beach. On completion of the course, he entered the employ of United Air Lines as a copilot, stationed at San Francisco and later at Cheyenne, where he and his bride now reside.

symbol of practical patriotism and should be displayed with pride by every home. All bond issuing agents have supplies of them. Be sure to get yours."

The last two weeks of the campaign will be given over primarily to subscriptions from corporations, although some have already reported them. Meanwhile, Lee expressed the hope that the quota for individuals will go over their \$400,000 within the next few days. Approximately \$300,000 has been turned in towards this goal, it was stated.

Capt. Carroll Bender Sends Plea for Vote in Brief Cablegram

(Continued from Page 1-A)

ship was hit by enemy fire and two engines put out of commission by enemy fire. "He didn't blow up or go down in flames. It is believed they tried to make it back through the weather and probably bailed out over Holland. I'd say he has 90 percent chance of being alive, either hiding out or a prisoner of war," Capt. Bender wrote.

Continuing, Capt. Bender said: "Stanley is a copilot. He had wanted to fly with me. Never got to fly with him but did talk to him a lot. We even got to Norway together one night. Had dinner in a little old place called Corat House—upstairs, old place. We had quite a talk. Told me about his wife and how he got into the Air Corps. Sure was good to hear about home.

"One consolation, when boys go down, is that 40 to 60 percent of them are alive. Jerry treats them fair. The civilian population doesn't like us, though, and have gotten rough on some. Can't blame them much. But, by God, Bert, we didn't ask for this war. Remind his people not to get frantic. Just wait."

Capt. Bender has been on more than 20 successful missions over Germany and the Nazi occupied countries since he went abroad and advises that he has been recommended to go into research which, he said, means "flying new stuff."

In another letter to his mother, Mrs. William N. Hiatt, 21502 Berondo ave., Torrance, he urged everyone at home to keep production going and to buy bonds. He said he would put the name of every purchaser of a war bond on a "Bomb for Jerry" if they will let his mother know. He also stated that his bomber crew is adopting an orphan.

Licensed to Wed

Following is a list of licenses to wed issued during the past week of interest in this community:

Wallace M. Kragg, 23, Long Beach; Jonell Marie Hale, 20, Torrance.

Elisha Bingham, 33, Torrance; Floy Whitley, 22, San Pedro.

Planning for Postwar Period Stressed at Cities League Session

(Continued from Page 1-A)

to do everything it can to get things going smoothly to expedite the war effort through this coordination, Legg said.

An interesting entertainment program was staged under direction of A. Beldon Gilbert, executive of the Peace Officers Civil Service Association of California, who brought a group of dancing girls from a Hollywood academy, many of whom have appeared in the movies.

Mayor Tom F. McGuire, who also is president of the Los Angeles County Division, League of California Cities, presided at the meeting and introduced numerous guests.

The speaker's table was decorated with flowers donated by the Torrance Flower Shop.

Mayor Gets Trophy

Immediately following the entertainment program, Mayor McGuire was called to the stage

BUY WAR BONDS Employees of Goodwill Industries of Southern California have not only made their contribution to the war effort by their daily jobs of making over clothing and furniture to serve the needs of the public, but during 1943 these employees purchased \$2500 worth of war stamps and \$1000 worth of war bonds.

The mayor suspected some kind of a "gag" being pulled in which he was to be the victim. To his surprise, Stroth presented him with a trophy from the Police Officers Civil Service Association bearing the inscription:

"To Tom McGuire, from the Peace Officers Civil Service Association of California, for being the most cooperative mayor in California in 1943."

The mayor thanked the donors in a few well chosen words and then returned to the speaker's table.

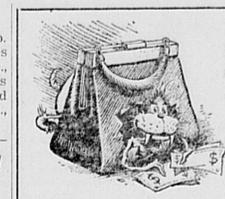

CALDWELL TAKES OATH Selective Service Board No. 280 has announced that James E. Caldwell, 22120 Moneta ave., Torrance, has been sworn in as a member of the local board with offices at 1339 Post ave., Torrance.

Moths are destructive. They can ruin a good wool suit or dress over night. But there's another pest more insidious and dangerous—the "Spangler Bug." His diet is dollars. He can slip hungrily into a pocket-book and eat a big hole in your savings. The way to spoil this Nazi beetle's appetite is to feed him War Bonds—all you can cram down his throat.

"Give Seven to Ten to the Service Men"

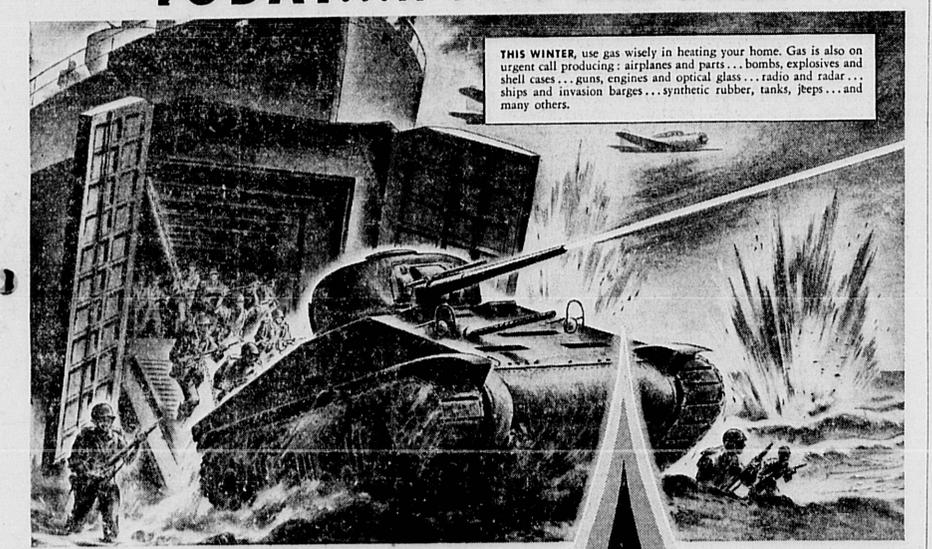

They're busy during the day. A few hours each night are about the only time they have to telephone. Wouldn't seem right if a casual call of yours held up a soldier's call back home.

Best way to avoid that is to play safe and not place any Long Distance call between 7 and 10 P M. unless it is really urgent. Tonight and every night "give seven to ten to the service men."

For Victory—Buy United States War Bonds

TODAY...A VITAL WAR FUEL!

THIS WINTER, use gas wisely in heating your home. Gas is also on urgent call producing: airplanes and parts... bombs, explosives and shell cases... guns, engines and optical glass... radio and radar... ships and invasion barges... synthetic rubber, tanks, jeeps... and many others.

"HURRY CALL!" The war won't wait; but mass production can now be speeded way up—thanks to precision control of Natural Gas!

Big job ahead! War materials are needed in a hurry and there's a way you can help: Uncle Sam asks you to conserve fuel of all kinds. And the fuel that is speeding Southern California war industries is natural gas.

Gas through precision control makes hurry-up, mass-production possible.

So use gas wisely in heating your home—don't waste it. Because gas is indispensable to the war effort—for dozens of technical requirements, for clean, fast heat!

Of this you may be sure—what is being learned of the adaptability of gas in war industry today, will help make your home even more modern tomorrow.
