

Lomita-San Pedro P. T. A. Group Meets at Local Park

Business and pleasure were combined when members of the Lomita-San Pedro Council met Thursday at the Torrance Municipal Park, where a picnic luncheon meeting was held.

Mrs. M. C. Isaacson, council president, presided over the business meeting, at which time it was decided to hold the council meetings on the fourth Friday of each month, rather than on the fourth Thursday, as has been done formerly. The theme of the year, as set by Tenth District, will be "The Home—To Preserve as a Nation." The September meeting will be held at the Fern Avenue School; October, Seventh Street School; November, Lomita Elementary; December, Point Fermin School; January, Waltham; February, 15th Street School; March, Orange Street School; April, Cabrillo Street School; May, Leland Street; while the June breakfast will be in charge of Bandini, Torrance Elementary, Barton Hill Auxiliary, and Harbor City Schools.

It was announced that a "school of instruction" will be held at the Methodist church, 6th and Grand, in San Pedro, on Aug. 30, from 10 to 12 a.m. All harbor chairmen are asked to take advantage of this, as instructors will be down from Los Angeles and all phases of P.T.A. will be discussed.

A series of six parliamentary law classes are also scheduled for Sept. 8 and 15 at Cabrillo Street School; Sept. 22 and Oct. 6, at Gulf Avenue School in Wilmington; and Oct. 13 and 20 at Torrance High school.

Program chairmen were given specific directions in regards to Tenth District requirements by Mrs. John Garner, program chairman for the council. In order to make standard, all requirements must be made by the various schools.

COMMERCIAL VEHICLE DATA MUST BE KEPT

Operators of commercial motor vehicles were told today by the Office of Defense Transportation that although records of miles traveled, motor fuel used, loads carried and tire inspections made, are more necessary today than ever before and must continue to be maintained, these records may be kept on forms drawn up by the operators themselves, which are convenient and suitable for their particular operations and that forms 17 and 17-A, formerly required by ODT to report operations will no longer be supplied operators.

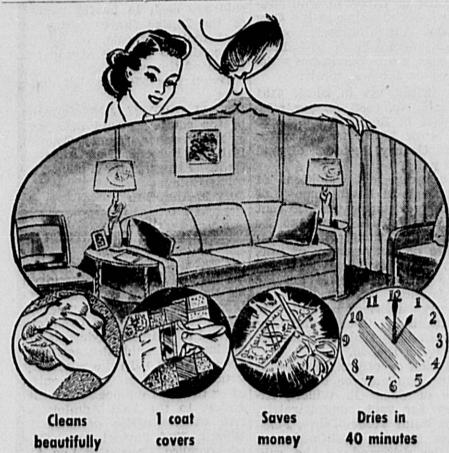

Tire inspection records must include a record of tire inspection for each vehicle, date of inspection, inspection station number, county and state, serial number or brand of tires requiring service and description of the required tire or vehicle services, certification of inspector that no service is necessary, or certification that such service was required has been performed.

Tires must be inspected at the end of 5,000 miles of operation or at the end of six months, whichever comes first, the ODT said. In addition, ODT officials stated that they were "trying to simplify for truck operators the task of keeping all truck records."

ENJOY CAMP LIFE... Girl Scouts at Camp Tologawa, Torrance municipal park, enjoy a real camp meal as their picture was snapped by a Torrance Herald photographer. They are, left to right, clockwise: Lois Alverson, Ann Gallimore (standing), Gwen Jo Nall, Elsiemy Church, Joan Sandstrom (standing), L-Cena Brunkill, Marilyn Biblehouse, Nyla Eipper, Juanita Jennings.

120 GIRL SCOUTS ROUNDING OUT CAMP LIFE AT TORRANCE PARK AS PROGRAM IS ENDED

With many happy and enjoyable hours spent at Camp Tologawa, located at Torrance City Park, eight Girl Scout units, 120 girls in all, will close their camp tomorrow after completing a very successful and accomplished camp training.

The program to be presented this evening will feature dramatics, folk dancing, singing and acrobatics.

The camp was under the direction of Mrs. Frank Church, assisted by Mrs. John Kirsch, co-director, and Mrs. Clarence Brocklesby, all of Lomita; Mrs. George Baer and Mrs. Hillman R. Lee of Torrance, and Mrs. Eric Heintzman of Gardena.

Under the capable guidance of the women, the activities at the camp were many and varied. No set program was followed. As the camp was being set up in the mornings the needs were met by the girls by making different utensils used at the camp. Tin cups were made of old tin cans which were wired at the top and bottom to hold a handle made from a large discarded wooden spoon. Table decorations were very cleverly arranged. One consisted of small leafy branches picked off the ground and topped with pine cones, bottle brush and eucalyptus buds.

The purpose of the camp was to give the delightful experience of camp life to city girls.

This camping vacation consisted of a day nursery conducted by the senior Scout members for the workers' children. Woodcraft, under the direction of George Thatcher, who spent one day instructing the girls to carve and paint a totem pole. Each girl selected a block on which she painted designs in different colors and on one side her initials.

Another craft at the camp was that of spatter painting. A leaf or flower was pinned on a sheet of paper over which was spattered a thin paint dropped onto the paper through a small piece of wire screen. When the leaf or flower was removed there remained a silhouette of the subject on the paper. In addition to this, lanyards were also made of colored oil cloth. Trail aprons and pack bags. All these things were made with little or no expense, which in itself is a remarkable feature of the camp. A very pretty sight at the camp was a ceremonial fire made of criss-cross logs topped with two small tepees made of sticks.

Cooking at the camp was not the makeshift variety. On the contrary it was over what very similar to that of a cooking school. Fried chicken and chocolate layer cake was on the menu.

The following troop units, their numbers and names they selected while at camp, participated: Nos. 416, 123, 398 and 74.

Building Permits

Torrance building permits for the month of July reached a total of \$32,970, the office of City Engineer G. M. Jain has announced.

This compares with a total of \$97,045 for July of 1943, and the total for 1944 is \$325,055.

Permits issued during the past week include:

Claude Forshoe, 3501 Spencer ave., \$1,700 residence.

Leone Casman, 3547 Spencer ave., \$1,200 residence.

Manuel Moreno, 24133 Park ave., \$1,500 addition.

Fred A. Gartell, 23132 Hawthorne blvd., \$400 garage.

Torrance Brass Foundry, 1825 W. 21st st., \$500 experimental laboratory.

Freed Magar, 1328 Elm ave., \$400 garage.

PLANT PERENNIALS

Utilization of warm corners or south exposures (beside the house or garage wall) where the maximum of direct and reflected sun heat can be capitalized will help the winter garden greatly. A warm spot will work two ways. Used for a late planting of string beans it will greatly prolong the season. Tomatoes ditto. If used for an early planting of winter vegetables it will advance their season. Some spots may even be warm enough to produce tender summer vegetables most all winter. It's a lot of work, quite a hazard and may not be worth while, but certainly will add variety to the diet if you succeed.

Seedbeds for Fall Plants

Broccoli, cabbage, head lettuce, onions—these and others should be started now in flats for subsequent transplanting to fall and winter gardens. Don't plant too much seed. A dozen cabbages planted each month will supply the average family of four, a half dozen broccoli plants every three months is enough, a dozen head lettuce plants every two weeks, etc. You can plant enough seed for about three transplantings of lettuce, two of cabbage, etc., holding the plants in the seedbed. The corner nursery will have 'em—buy there and save seed.

The can opener will be able to retain its importance despite wartime conditions. The WPB has authorized twice as much iron and steel for its manufacture.

Their names: Earl Birds, Koo-koo-ro, She-Wolves Den, Acacia Nest, Eagle's Nest, Busy Squaws, Magnolia Blossoms and Pine Cone Brownies.

Navy Pontoon Bridge Operating At Long Beach

The United States Navy's new retractable pontoon bridge across the Long Beach harbor channel now is in operation. It is the only mechanical bridge of its kind in the area. This bridge connects the dead ends of Seaside blvd., on both Terminal Island and Long Beach proper, saving the motorist an average of 20 miles of driving.

At present the pontoon bridge is open only during shift changes, 5:45 to 6:15 a.m., and 3:45 to 4:45 p.m. Only passenger cars will use the bridge. However, in the near future bus

Man Charged With Assault With Deadly Weapon

Elisio Cota of the Pueblo district was to appear before City Judge Otto B. Willett today on a charge of assault with a deadly weapon.

He was accused of attacking Jose Ornelas on Sunday with a knife.

Limited production of electric water heaters has been approved.

service and pedestrian travel will be permitted. Most of those using the bridge are employees of shipyards on Terminal Island.
