Torrance Growth Seen by Local Chamber Leaders

(Continued from Page 1-A) erally. It is up to us to see that they are cast in the direction of Torrance.

Population
Torrance has a population of 14,000 and an assessed valuation of more than 27 millions of dollars. Compton, with a population of 23,000 and an assessed valuation of only 11½ millions of dollars, has started proceedings for a bond election to raise \$550,000 for a modern airport, improved parks, recreation, transportation, etc. The city of Torrance enjoys a general fund of \$93,000, including the surplus of the Water Department, totalling \$115,000. It would be far better for the future of Torrance if we only had a general fund to insure solvency, and could prepare a roster picture for Torrance, than to have idle funds locked away or bearing usual interest rates.

We suggest that a Projects Committee be appointed in the very near future, to make overall plans and submit recommendations to the City Council and others. The Chamber of Commerce represents a cross-section of industrialists, merchants and citizens. Our voices should be heard. The future of our community depends upon us and cooperating and coordinating organizations working with us.

Our City Council will be found to be sympathetic with all plans of a sound nature. Our members should be present at council meetings and work out our problems with them.

Your Chamber of Commerce is your paid servant. It will obey your instructions and follow your desires. What are those instructions and desires?

Torrance is the hub of basic industries in Southern California. We have adopted the slogan, "Watch Torrance Grow." This must not be an idle phrase.
