

**GERMANY SURRENDERS!** *But Stay on the Job*  
**Let's All Finish the Fight!**

The defeat of Germany is great news! . . . but well do we know that our job is only **HALF** done . . . for there remains a bitter, costly war to wage for the final and complete defeat of Japan!

This calls for the toughest military operation of all times . . . a fight to the finish with a fanatical foe located half-way around the world.

Any delay or pause now will cost us just that many more precious American lives . . . will delay peace just that much longer. Certainly we will not fail in this final, tremendous drive to punish the guilty, to bring peace and security to a war-weary world!
