

Bar Laundry Soap Retail Ceiling Price Increases

Retail ceiling prices for the main brands of yellow bar laundry soap have been increased one cent to two cents a bar, the Office of Price Administration announced today.

The new ceilings for the five listed brands, effective today,

range from seven to eight cents a bar on sales by small and medium independent stores, and range from six to seven cents a bar on sales by chain stores and the larger independents.

Unlisted yellow bar laundry soaps have been given a similar retail ceiling. Price increase, which will be figured automatically by each store, using customary percentage mark-up over net unit cost.

Yellow bar laundry soap is the cheapest of all soaps.

Navy Seeks Bids For 482 Acres Of Agricultural Land

The Eleventh Naval District Public Works department has announced that bids are being solicited for the leasing of approximately 482 acres of agricultural land, together with ranch buildings, within the boundaries of Camp Joseph H. Pendleton, located 12 miles north of Oceanville and six miles south of San Onofre.

The land, known as the old Carter ranch, may be viewed on June 10, 11 and 12, when a Navy department representative will be on duty from 9:30 a. m. to 3 p. m. Information and bids for leasing can be obtained from the Real Estate Section, Public Works department, 1220 Pacific Highway, or by calling Main 3871, Extension 643 or 644. Bidding will close at 4:30 p. m. Friday, June 14.

The successful bidder will be required to execute the lease and tender a cashier's or certified check payable to the Treasurer of the United States for the amount, set forth in lease within five days after his notification of the successful bid.

Parental Okay On Birth Information Is Made Possible

An addition to the California standard birth certificate is being called to the attention of physicians and hospitals in this district, according to Mrs. Margaret Patriquin, deputy registrar for the Torrance health district, the new form including a space for parent approval of information listed on the form.

While it is not compulsory for the parent to approve the statements shown on the birth certificate, many mistakes may be corrected before they become a matter of record, Mrs. Patriquin pointed out. If a certificate is filed with the incorrect spelling of a child's or parent's name, for instance, it is necessary to file an affidavit of correction which becomes a part of the birth record. It is hoped that careful checking of the original certificate by the mother and father will obviate some of the mistakes.

Records of births and deaths occurring in Torrance are filed in the Torrance health center and information regarding them may be obtained from the deputy registrar.

Nation's Greatness In Spiritual Stature Of People, Scientists Say

Until all responsible government heads are made to realize that the measure of a nation's true greatness is the spiritual stature of its people, rather than its physical resources, there can be no end to the conflict, between materially mental forces that precipitated World War II, The Christian Science Board of Directors told the Annual Meeting of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, Monday.

The time has come, the Directors affirmed, when representatives of all social and religious systems are being called upon to give something more convincing than promises, preachment, and paganistic pageantries to sustain the faith of their fellows, and to provide for a lasting peace.

If these systems are to survive, declared the official spokesmen of the world-embracing Christian Science movement, they must "furnish proof that the ideals for which they stand can be made of practical use in advancing the cultural, economic and spiritual welfare of the race."

This statement from the Directors was given before thousands of Christian Scientists attending the first peacetime Annual Meeting in five years, many of whom came from countries long shut off from the world by war. They brought with them vital lessons from the troubled years just passed to emphasize the Directors' contention that "the supreme duty of statesmen and churchmen at this crucial hour is to use every means at their command to prevent another world conflict and to bind up the unhealed wounds left by the last one."

"This is no time for them to resort either to subterfuge or aggression as a means of extending the political influence of any church or state," the statement said.

Moral Sense of Religion Continuing on these lines, the Directors insisted that "there is no room in the church for politics, and in a democratic system of government there is no room in politics for the church. There is, however, always room in politics for the moral sense of religion."

Applying that statement with equal force to national and international affairs, the Directors added: "It makes little difference whether it be a conflict between political ideologies and religious dogmas or an open warfare between armed forces; the results are always stultifying."

"If those who are today engaged in the grave task of building a world government for the purpose of establishing permanent and universal peace on earth, fail to turn to God for guidance and fail to make spiritual integrity the very founda-

L. B. Cudworth President Of The Mother Church

Announcement of the appointment of Luther Phillips Cudworth, C. S. B., of Boston, as President of The Mother Church,

LUTHER P. CUDWORTH — The First Church of Christ, Scientist, in Boston, Massachusetts, was made today by The Christian Science Board of Directors.

Mr. Cudworth at various times has served as Purchasing Agent of The Christian Science Publishing Society, a Director of Christian Science Welfare Activities in Portsmouth (New Hampshire) Naval Prison, Committee on Publication for the State of Oregon, and as First Reader of First Church of Christ, Scientist, Marshfield, Massachusetts.

He is a native of Iowa, receiving his early education in the public schools of St. Paul, Minnesota, and later attending Harvard University and its College of Business Administration. Before devoting his entire time to Christian Science activities, he was associated with the printing and publishing business in St. Paul, and with the Portland, Oregon, Railway, Light and Power Company.

He received instruction in the Normal class of the Board of Education in 1934, and since that time has taught classes in Christian Science annually.

Appointment of nearly 500 volunteer Wartime Workers, from members of the British and the United States armed forces, supplemented the work of 20 Official Ministers and Authorized Workers under British and Australian commands abroad.

In the field of relief, clothing valued conservatively at \$4,250,000 has been shipped and distributed, irrespective of race or creed, through Christian Science channels in at least 13 foreign countries, according to the report of the Clerk of The Mother Church. In addition, over 500,000 hand-knitted garments were said to have been distributed among the armed forces.

In the field of legislation, a number of provisions favorable to Christian Science were included in state laws, city ordinances and in administrative regulations during 1945, it was reported by the Committee on Publication. Extreme alertness was the theme of his report in protecting "the constitutional and God-given rights of Christian Scientists" against health and social legislation which would interfere with the practice of their religion.

Govt. Warns Purchasers Of 'Aerosol' Bombs

A warning was received recently by C. V. Castle, farm advisor in Los Angeles county, from the Department of Agriculture in Washington that prospective purchasers should carefully read labels on containers of so-called "Aerosol" bombs before purchasing.

Castle states the department has licensed manufacturers using formulas containing up to 3 per cent DDT, and that labels carrying the department's license will assure the proper formula. The warning from Washington indicates that Aerosols containing large amounts of DDT may be harmful to humans without being any more effective in killing insects. The bombs are specifically designed for use in enclosed places to kill flying insects, and are not recommended for crawling insects, such as cockroaches, ants, bedbugs, etc.

Food Savings Project Group Is Organized

Formation of the Food Saving Project Committee, which Governor Earl Warren requested be organized by the State Reconstruction and Reemployment Commission, has been completed. This was announced by A. Earl Washburn, state director of reconstruction and Reemployment, who stated that the Committee will meet soon in Los Angeles to launch a campaign carrying out the Governor's plan of conserving food and increasing production in California to help feed starving people in other parts of the world.

The project committee brings back into service the California State Food and Nutrition Committee, which carried out a wartime program. Following acceptance of the project committee chairmanship by Anthony J. Lorenz of Los Angeles, research director of the California Fruit Growers Exchange and a national authority on food conservation and production, the following Californians have accepted appointments to the Committee: William W. Bradford, Los Angeles, executive vice-president, Southern California Restaurant Association; Major W. S. Everts, San Francisco, vice-president, Cannery League of California; William D. Hader, San Francisco, state secretary, California Retail Grocers and Merchants Assn.; R. M. Hagen, Los Angeles general mgr., California Consumers Corporation; C. J. Haggerty, San Francisco, sec'y, California Federation of Labor; Mrs. A. R. Jewel, Napa, second vice-president, State Parent-Teachers Association; Palmer C. Mendelson, San Francisco, Mendelson Company; Dr. Langley Porter, San Francisco, Dean Emeritus, University of California Medical School; Dr. Flora Rose, Berkeley, Nutrition Consultant, Berkeley Public Schools; William B. Ryan, Los Angeles, general manager, Radio Station KFI; L. B. Williams, San Francisco, director, California Foods Research Institute; Ray B. Wiser, Berkeley, president, California Farm Bureau Federation.

PEANUT BUTTER

A grand food for Children and Grown-Ups Too!

Serve this wholesome and vitamin-rich food often. It takes the place of many currently short-in-supply foods. Safeway has a plentiful supply, so take home a jar or two, today!

BEVERLY PEANUT BUTTER 1-lb. **27¢**

Fresh-roasted flavor. 2-lb. jar, 48¢

HOWDY PEANUT BUTTER 1-lb. **27¢**

Coarse grind. Guaranteed to please.

ROSE PEANUT BUTTER 8-oz. **20¢**

Smooth grind. Spreads easily.

REAL ROAST PEANUT BUTTER 2-lb. **46¢**

Seasoned right for top flavor.

WAYS WITH PEANUT BUTTER

PEANUT-BUTTER COOKIES

Blend together in a large bowl:

- 1/2 cup peanut butter
- 1/2 cup shortening

Then add, and cream until light and fluffy:

- 1/2 cup brown sugar, firmly packed
- 1/2 cup granulated sugar

Sift in, and beat well:

- 1 egg

Sift, then measure into sifter:

- 1 1/2 cups enriched flour
- 1/2 teaspoon soda
- 1/2 teaspoon baking powder
- 1/4 teaspoon salt

Sift into creamed mixture; mix well; chill 2 to 3 hours; then roll in small balls. Place on lightly greased cookie sheet. Flatten with a fork dipped in flour, making crisscross marks on top of each one. Bake in a moderate oven (375° F.) 10 to 12 minutes, or until golden-brown. Makes 5 dozen cookies 2 inches in diameter.

PEANUT-BUTTER FROSTING

Combine and mix thoroughly:

- 3 tablespoons peanut butter
- 2 tablespoons cold coffee
- 1 tablespoon cream or milk
- 1 tablespoon vanilla extract

Sift, then measure:

- 1 1/2 to 2 cups powdered sugar

Add gradually to peanut butter mixture, beating well after each addition. Will frost 3 dozen cookies or a small layer cake.
