

Nativity Church Dinner, Program Real Success, Drawing Over 1,000

The dinner and program held Sunday afternoon and evening in Civic Auditorium and sponsored by Nativity Catholic Church, was an outstanding financial and social success. Proceeds will swell the fund for the proposed new parochial school in Torrance.

Rev. P. J. McGuinness, pastor, wishes to express his sincere appreciation to all who contributed to the success of the affair. Guests from Van Nuys, Azusa, El Monte, Los Angeles and other cities also enjoyed the turkey dinner and the exceptionally fine program.

More than 1,011 dinners were served, according to Mrs. Guy Felton, general chairman, who wishes to convey her personal thanks for the splendid cooperation of all her committees.

A highlight of the evening hours was the presentation of a hope chest and its beautiful contents to Miss Eva Jo Arnold of 1551 Post ave.

Other beautiful gifts were a wrist watch received by Mrs. Nell Finch of 1005 Sartori ave., a Martian radio and electric iron to Mrs. Catherine Wicker of 1633 Acaacia ave.; Mrs. Thelma Tip-ton, 262 1/2 S. Pacific, Redondo Beach, was the recipient of a Hoffman radio, and Helmar Pederson, 4373 S. Van Ness, Los Angeles, a handsome carving set. George Uhar, 1675 Gramercy ave., received a large smoked ham.

Winners of the popularity contest were announced as follows: Mrs. Charlotte Newton, Miss Rosa Ortmann, Mrs. Clara Goodson, Mrs. Dorothy Lee McNally Andrade.

Mrs. John V. Murray, as chairman for the delightful diversified program, presented: Mrs. Neil J. McConlogue, pianist; John V. Horvath, baritone; and his accompanist, Miss Mary Seaman; Miss Rosalie Fortin, soprano, all of this city. The Betty Thomas Accordionettes, enthusiastically applauded, were Yolanda Goldsmith, Steve, Cindy and Pat Hornick, Joan Blackman, Janeene Colombo, LeRoy Moore, Fred Diesel, Robin and Gail Thomas, Bobby and Nor-

Other outstanding presentations featured the following out-of-town artists: Mrs. Mae Badger, accordionist; Miss Catherine Sibley, soloist; and Gloria Gonzales in a colorful Mexican hat dance; Marian Darlington, bird whistler for the films; Don Pratt, Long Beach cornet soloist, winner of a music scholarship at Iowa State and student of European conservatories; Violet Berggren, pianist; and Angus McPherson, violinist.

J. ORESKOVICH GETS COUNCIL O.K. FOR NEW STATION

Jack Oreskovich Tuesday night won City Council approval of his petition for a zoning variance to permit construction and operation of a service station at 3743 W. 190th st., opposite the General Petroleum Co. refinery entrance. The council concurred in an action by the City Planning Commission.

CLAUDE W. BELL VARIANCE PLEA IS APPROVED BY CITY

Claude W. Bell's petition for zoning variance to permit the operation of an automobile radiator service and sales room at 1880 W. 166th st. was approved by the City Council Tuesday night.

Bell had previously won approval of the City Planning Commission for the variance.

Let not him who is houseless pull down the house of another, but let him work diligently and build one for himself.

Don't Neglect Cold, Advises Health Officer

ROY O. GILBERT, M.D. Los Angeles County Health Officer

Many diseases may start with the symptoms of "just a cold" and suddenly turn into some ailment that is more than the sniffles. Particularly true are many of the childhood diseases, such as measles, scarlet fever, diphtheria and whooping cough, as well as influenza, pneumonia and other respiratory infections.

For this reason, a common cold should never be neglected, both for the sake of the patient's comfort as well as from the standpoint of spreading whatever infection the germs carry.

Anyone suffering from cold symptoms should be put to bed, preferably in an isolated room so that they may not expose other members of the family. Paper tissues or handkerchiefs to cover the nose and mouth when coughing is helpful in preventing the spread of the contagion to others.

If there is an above-normal temperature present, a physician should be consulted, as many of the diseases of which a cold is a symptom need prompt medical care in order to ward off a protracted illness and complications, and a light diet and plenty of rest are advised.

Rest, plenty of sleep, and a light diet are advised for those who have a cold. This is also true in cases where these symptoms predominate but where they may run into other respiratory infections and many of the other cold-symptomatic diseases.

Other outstanding presentations featured the following out-of-town artists: Mrs. Mae Badger, accordionist; Miss Catherine Sibley, soloist; and Gloria Gonzales in a colorful Mexican hat dance; Marian Darlington, bird whistler for the films; Don Pratt, Long Beach cornet soloist, winner of a music scholarship at Iowa State and student of European conservatories; Violet Berggren, pianist; and Angus McPherson, violinist.

Deiningering And Brown Going To Kiwanis Parley

The Kiwanis Club of Torrance will be represented at the 1946 convention of the California-Nevada Kiwanis District to be held Oct. 10 to 12 at Oakland, Calif., Club President John Stroth announced today.

Delegates to the meeting, which will feature an address by John E. Gorsuch, prominent Denver, Colo., attorney and a member of the Board of Trustees of Kiwanis International, will include Edwin B. Brown, business manager of the Torrance Herald and first vice-president of the club, and R. J. Deiningering, secretary of the club, vice-president and cashier of the Torrance National Bank.

Election of officers and presentation of the 1947 objectives of Kiwanis International will be highlights of the convention, President Stroth said. One hundred and seventy-four clubs in the district are expected to send delegates.

Dr. Benjamin H. Pratt, governor of the California-Nevada District, will preside at the various sessions. In this connection, Gordon A. Woods, president of the Oakland club, announced that plans had been completed for a formal reception and ball.

Long active in Kiwanis administration, Gorsuch is president of the Community Chest of Denver, president of the Legal Aid Society, and a trustee of the University of Denver. He has been a member of the Denver Board of Charity for 15 years and during the war was chairman of the Non-Ferrous Metal Commission of the National War Labor Board.

Other outstanding presentations featured the following out-of-town artists: Mrs. Mae Badger, accordionist; Miss Catherine Sibley, soloist; and Gloria Gonzales in a colorful Mexican hat dance; Marian Darlington, bird whistler for the films; Don Pratt, Long Beach cornet soloist, winner of a music scholarship at Iowa State and student of European conservatories; Violet Berggren, pianist; and Angus McPherson, violinist.

PETITIONS FOR FORMATION OF WATER DISTRICT ARE CIRCULATED IN LOMITA

Petitions are being circulated in Lomita, as well as in other incorporated towns and county territory of the area known as the West Basin, except Torrance, asking the Los Angeles County Board of Supervisors to call an election at an early date when residents will vote for or against the formation of a water district.

Many names have already been obtained, and the petitions will continue to be circulated during the next week or ten days.

Voters who are asked to sign the petitions may do so, whether they are favorable or opposed to the formation of the district, since this action is but the preliminary step necessary to bring about an election when they may vote on the proposition.

The petitions were handed out at the close of a meeting held Tuesday night at the Lomita Community Church hall, when F. M. Van Norman, West Basin committee chairman, explained the purpose and the need for immediate action on the part of this area to secure additional water supply as an insurance against future contingencies.

Van Norman, one of a group appointed by the Board of Supervisors to study the falling water supply in the coastal area, told the group that the water situation in Lomita is sounded by Inglewood to the north, Signal Hill on the east, is already at the point where additional supplies must be secured.

Geological faults along the line from Inglewood to Long Beach deprive this area of much rainfall and melting snow from mountain areas which sink into underground reservoirs. The natural fault acts as a dam to impound water north of its range, leaving a limited amount to filter through occasional breaks in the underground rock wall.

Since population, industry and farming with its irrigation requirements have greatly increased in the past 30 years, the drain on the local water supply has become larger than the natural replenishment, with the result that water tables are lowered from 20 to 60 feet below sea level, salt water has encroached from 2 to 6 miles inland, and will continue to menace the existing supply of fresh water unless action is taken to cut down on withdrawals of the existing supply and a new source of water is imperative.

Van Norman pointed out that the suit now in court to adjudicate the rights of water users in this area, when a decision is rendered, may require a reduction in water use to as much as 60 percent of the present take. This means, he said, that water companies which now have reached the limit of their capacity to supply customers will be metered down to one of that capacity and customers will suffer the loss of one-half of their normal daily supply.

The only remedy for this situation is an additional water supply brought in from outside the area.

Van Norman made no recommendations as to what source of additional water supply should be selected, but merely pointed out the steps necessary to form a district which would then be in a position to shop around for a water supply and choose the one best suited to the needs of the district.

Stevens estimated that with the present rate of purchases, all funds from a \$30,000,000 bond issue approved by the voters in 1944 will be exhausted by that date.

Purchases under the state plan during September totaled \$1,888,900, representing 354 homes and farms. A total of \$282,000,000 have been purchased at a cost of \$2,200,000 since the program was extended to World War II veterans in 1943.

The necessity of making some contracts subject to approval of Proposition No. 1 will cause no delay in a veteran's possession of his home or farm, Stevens said, since the escrow period required for completion of a purchase is no longer than the approximate two weeks which will remain before the election.

"Failure of the bond issue appears to be extremely unlikely," the director commented. "Proposition No. 1 has been widely endorsed by public and private groups throughout the state, and there is no organized opposition. Except for the amount, it is identical with five other bond issues approved by the people during the past 25 years."

The farm and home purchase plan, inaugurated in 1921 for the veterans of World War I, is operated without cost to the taxpayers. Funds for retirement of the bonds and payment of all administrative costs are obtained from repayment of veterans' contracts.

The interest rate on purchase contracts has been cut from five percent to three percent, making it possible for a veteran to obtain a home under the state plan at lower cost than with any other form of financing available in California.

Approval of the City Council was given Tuesday night for the subdivision map of Mrs. G. Hammock covering 22 residential lots on 203rd st. just west of Western ave.

The map provides for a 76-foot street, paving 34 feet with 2-inch asphalt plant mix, installation of gutters, curbs and culverts. Harold A. Barnett is the engineer in charge of the layout.

REVISSED ESTIMATE OF SEWER COSTS FOR WALTERIA ASKED

Harold A. Barnett, engineer, has been asked by the City Council to present a revised estimate of cost for construction of sewers in the Walteria section, using alleys for lines instead of streets.

George P. Thatcher told the council Tuesday night that the people are ready to go ahead with formation of the district and asked all speed in the matter.

COUNCIL REFUSES PETITION FOR PRIVATE PATROL

The City Council Tuesday night refused to permit the California Private Patrol to operate as a merchants' police service in Torrance.

Chief of Police John Stroth told the Council that two patrols are enough, one the city police and the other a private firm.

Stevens estimated that with the present rate of purchases, all funds from a \$30,000,000 bond issue approved by the voters in 1944 will be exhausted by that date.

Purchases under the state plan during September totaled \$1,888,900, representing 354 homes and farms. A total of \$282,000,000 have been purchased at a cost of \$2,200,000 since the program was extended to World War II veterans in 1943.

Stevens Reveals Vet Loans Depend On Ballot Issue

Lawrence C. Stevens, State Director of Veterans Affairs, announced contracts with California veterans for purchase of farms or homes after about October 20 must be made contingent upon approval of Proposition No. 1, the \$100,000,000 veterans farm and home bond issue, at the November 5 general election.

Stevens estimated that with the present rate of purchases, all funds from a \$30,000,000 bond issue approved by the voters in 1944 will be exhausted by that date.

Purchases under the state plan during September totaled \$1,888,900, representing 354 homes and farms. A total of \$282,000,000 have been purchased at a cost of \$2,200,000 since the program was extended to World War II veterans in 1943.

Torrance Faculty Told Importance Of Ballot Issue

Speaking Tuesday afternoon before the weekly meeting of the Torrance high school faculty, Mrs. Florence Vandermast called attention to the need for supporting Torrance schools by voting "Yes" on Proposition 3, Nov. 5.

Mrs. Vandermast is head of the Torrance High Home Economics department.

"By providing for an increase from \$80 to \$120 in the state allocation per student," she pointed out, "Proposition No. 3 will reduce local school taxes considerably."

Another provision of this section would guarantee to teachers a minimum annual salary of \$2,400, compared with \$1,800 now assured them.

Mrs. Vandermast pointed to another issue, Proposition No. 23, which she said must be defeated or it will nullify No. 3. Proposition 13 would freeze present state allocation for support of public schools in California.

All regional Veterans Administration offices with the exception of 23 contact stations, will change to a five-day schedule and hereafter be closed Saturdays. L. C. Chapman, announced today.

The contact section, so named because it deals directly with veterans, will observe the same hours as previously. The Los Angeles downtown office, 1041 South Broadway, will remain open as before, 24 hours per day and seven days per week, Chapman said.

Veterans continue, at the rate of 50,000 per month, to request interviews regarding federal benefits from the contact department, Chapman said in explaining why this section would not observe shorter hours affecting other regional offices.
