35 Years Ago...

... and Today!

The first issue of the Torrance Herald thirty-five years ago showed an artists' "birds-eye" view of the Union Tool Works... which is now The National Supply Company. Thus began a friendly relationship between this company and The Torrance Herald which has grown in confidence and trust because of the mutual objective of building a great and prosperous city.

During these years The National Supply Company has grown... a growth marked by the employment of 400 thirty-five years ago to a peak of 2800 men and women during wartime... and current employment of over 1700 men and women.

So now... as The Herald officially opens their beautiful new home... we at The National Supply Company, offer our sincere congratulations.

THE NATIONAL SUPPLY CO.
