

WE BELIEVED IN TORRANCE

*20 years
ago*

In selecting the site of our major refining development, General Petroleum recognized the advantages of Torrance 20 years ago. That we chose wisely is evidenced by the fact that Torrance is today one of the outstanding communities of its kind in America.

We are proud of the part we have played in making Torrance one of our richest industrial centers, and a pleasant home for many thousands of families.

Yes, we believed in Torrance nearly a quarter of a century ago. And today we share the belief that Torrance of tomorrow will fulfill the expectations of its forward looking citizens.
