'OLD NICK'—Patriarch of all Christmas Trees, sturdy "Old Nick," 500-year-old sugar pine towering 240 feet in the air, is one of the trees the California War Memorial Park Association is trying to save. These Big Trees are in the Beaver Creek section of Tuolumne County.

Tell How to Prolong Life of Yule Tree

Your Christmas tree should be kept fresh and safe during the Christmas season. Miss Lucille Spelman, assistant home demonstration agent in Los Angeles county, says standing the tree in water will preserve its life and freshness for several weeks.

When you select your tree make sure that it's the freshest, greenest one you can find. Cut the trunk off diagonally about an inch above the original cut and stand it in three inches of water in a cool, shaded place until decoration time.

After the tree is set up in the house for the holiday season set the trunk into a No. 10 tin can and fill the can with crushed gravel or rock. See that the can is kept filled with water for as long as the tree is standing. Set the can on any ordinary Christmas tree base but do not nail it as the water will escape through the holes. Supports from the base of the stand can be nailed into the trunk of the tree above the can.

This treatment will keep the tree fresh for a longer period, prevent the needles from dropping, and will greatly reduce the fire hazard.

Another precaution is to be careful in changing bulbs on Christmas tree lights. Don't turn the socket and twist wires so that they will short. A shorted wire could cause a fire.

CHANGE BRAKE TECHNIQUE

Motorists who have occasion to travel over gravel roads are reminded that braking on such roads requires a different technique from braking on a hard surfaced road. Generally speaking, a light pressure on the pedal is needed to avoid locking the wheels and thus causing the car to slide on the loose surface. The pebbles under the tires are apt to act as small wheels upon which the car will roll much farther than it would on concrete or on asphalt.

Center Tells of Benefits for Veterans

Until a veteran has had a talk with someone thoroughly versed in veterans' rights and privileges he probably has no idea of how many benefits State and Federal laws make available to him, according to J. G. Caldwell, director of Torrance area Veterans Service Center. The function of the Torrance Veterans Service Center is not only to assist veterans with their immediate problems, but also to find out other ways to assist them.

The Veterans Service Center also has a supply of booklets, pamphlets and other literature on their rights and benefits which veterans are welcome to take home. Office hours are maintained from 8:30 a.m. to 5 p.m., Monday through Friday at 1339

Husband's complaint: When it comes to such activity as painting a room or pruning a tree, I've learned my wife's editorial "we" means ME—M. G. Harvey. Post avenue. Telephone Torrance 1356.

Theme song of the gold migration to California, according to John Walton Caughey's Gold Is the Cornerstone (University of California Press) was Oh Susannah, don't you cry for me, I'm off for California, with my wash bowl on my knee.
