

Torrance Salutes Builders Of 4,589 Homes In City

(Continued from 1-A)

Seahaven, in the Riviera area on Catalina street, also known as Hollywood-Palos Verdes Parkway.

John Kettler, of Kettler Knolls, who has 207 units under way and proposes immediate construction of 122 more homes, south of Sepulveda boulevard and east of Narbonne avenue.

Homer Bales, of Torrance Manor, who is completing 186 new homes and proposes 20 more at 174th street and Crenshaw boulevard.

L. J. Shannahan & Son, who soon will start 73 new homes at 24th street and Arlington ave.

Dike, Driggers and Lowmes, whose plans for 148 new units at 228th street, just west of Western avenue, have been approved.

Jack Pine, who proposes 86 units at Dominguez street and Crenshaw boulevard.

Jack Strauss, who plans for 122 new units south of 101 highway and west of Hawthorne boulevard.

T. A. Johnson, who is building 10 units in South Torrance.

A. M. Schinn, Select Homes, building 54 units in the Walteria area.

J. E. Stinson, who has plans for 275 units in a multiple project in West Torrance.

Career Day Is Planned For Torrance High

March 17th has been set as "Career Day" at the Torrance High school. On that day business leaders will be called in from the community to address student groups on career requirements and give general advice preliminary to student choices.

The day's special program will start with a general assembly at 11 o'clock when the entire student body will hear an inspirational speaker. This assembly will be followed by a first round of career group sessions, students having signed up for these groups by indicating their first choices in a preliminary registration. During the noon hour a special lunch will be served to the guest speakers by the advanced cooking class of the Home Economics department at the high school.

Following lunch, the student body will again break up into a set of second choice groups, to hear still another speaker discussing a second possible career. As a follow-through from the day's activity, students will be allowed to get further possible guidance from their adult speakers through try-out work experience on a part time employment basis in many instances.

"It is hoped that the day will aid the students of Torrance High in making definite career choices and thus give their regular classroom work real vocational importance and significance," Principal Lloyd Waller said. "The entire high school faculty is assisting in developing the plans for career day, and in turn will serve as teacher sponsors for the student groups finally agreed upon. Student chairmen will also be provided to serve as guides and to introduce the guest speaker to each group."

Persons crowding the Civic auditorium for the roast beef dinner prepared by the American Legion auxiliary members under Mrs. Ethelyn V. Sears, president, assisted by members of the Legion post here.

A program by the Torrance Area Youth Band, directed by James Van Dyck, presented during the early part of the program, brought the remark from Parkin that "no community has any cause to worry about juvenile delinquency with such organizations for youths being advanced in the city."

He read a telegram from Rep. Cecil R. King, extending greetings to the Chamber and its community builders being honored at the banquet. King said: "Housing projects under construction will when completed alleviate the critical housing shortage in the Torrance area. The City of Torrance, its people and its Chamber of Commerce and its builders are to be congratulated for the magnificent development and growth of this fine California municipality."

Representative King said that he was doing everything possible to have the Federal Housing Administration complete prior to March 31 the processing of housing applications needed in this vicinity.

Parkin introduced Mayor J. Hugh Sherfy, Jr., and members of the official family of Torrance; Dr. Howard A. Wood, president of the Torrance City Board of Education; Superintendent J. Henrich Hull and President G. W. "Jerry" Werd of the Lomita Business Association, which group had some 20 members present for the civic gathering.

The Rev. Torben Olsen, rector of St. Andrew's church, gave the invocation.

In his remarks, as he introduced his successor in office as president of the Chamber, Chas. T. Rippey, Parkin said:

"One year ago at our annual banquet we honored the industry of our community. At that time we announced that our primary object for 1947 would be that of securing homes, both rentals and for purchase, for the hundreds and thousands of people working in our industrial plants and business firms."

He then told of work of the Chamber through government officials and private interests, the planning commission and other agencies in setting the wheels moving for development of many of the projects now under way or proposed here.

"It was not long after the initial projects were launched," said Parkin, "that results of our independent survey indicated a quadrupling of our population during the next five years. This sudden 'growing up' certainly presented some first class 'growing pains' for our city government. Obviously we were about to graduate from an elementary small town school to a first class up to date modern high school city."

"It would naturally be out of the question for a city of 40 or 50 thousand population to be efficiently managed by a Council of five men meeting together one or two nights a week. Such a situation would be grossly unfair to the populace and also to the Councilmen.

"Your Chamber made a comprehensive survey of city governments and as a result recommended that Torrance adopt the most efficient type of city government now in use, namely the 'City Manager' form. We recommended to our Council that our Charter be amended to provide for a City Manager. The Council con-

NAVY'S NEEDS

"The future of the Navy depends," the Secretary of the Navy has said, "on a national understanding of seapower, and the ability of our Navy to control the sea ways; adequate trained personnel competent to perform the technical assignments necessary today; ship and aircraft industries capable of rapid expansion and thorough

KEEP BULBS SPOTLESS

Fingerprints are out of place on headlight bulbs. One should be careful when installing new bulbs to wipe them clean. Even the mark of one's finger will reduce lighting efficiency.

research and development programs."

NAVY IS FIRST HURDLE

"Regardless of the development of new weapons, the Navy is still the first line the enemy must hurdle either in the air or on the sea in approaching our coasts across any ocean. The earliest warning of enemy air attack against our vital center would be given by naval, air, surface and submarine radar pickets deployed in the vast

ACCIDENTS

There were 20,514 reportable accidents and 32,872 persons injured on California's rural roads and highways during 1947. These figures represent an increase of 4.37 percent and 3.18 percent respectively over those for 1946.

ALWAYS GIVE SIGNAL

Don't forget that rear view mirrors have not eliminated the need for giving signals. Many a motorist does forget it. He looks in his mirror and sees nothing immediately behind him and assumes that any maneuver may be made safely.

FOLLOW SPECIFICATIONS

Always follow the insistence of the maker of your brake system upon a specified fluid. Much damage has been done to parts of the system by the use of other liquids. It is best to follow the factory specifications at all times.
