At the conclusion of the chapter meeting, members adjourned to the banquet room, which had been decorated by Grace Ashley, chairman of arrangements, in keeping with the Easter season.

Pastor calls lilies, Easter eggs and colorful bunny nests decorated the tables where delicious refreshments were served. The Doxology was played by Pat Clere.

HERE'S WHERE I STAND

1.—The present Board of Education is proceeding with plans for an extensive bond issue. I have previously stated my opposition in "Letters to the Editor." I have said, "We need new schools, but let's not bond ourselves for more than we need." This is not the time to plan a ten year expansion program. I believe that because of the uncertainty of the times, excessive building costs and curtailed financing from lending institutions, our expansion plans at the present should not exceed a two year period. The excessive bond issue now planned does not even contemplate such necessary improvements at the high school as a gymnasium, athletic field and swimming pool, all of which are greatly needed and would serve the community far better than unnecessary and empty classrooms. If elected to the Board of Education, I will do my best to prevent issuance of bonds until actual need arises.

2.—The new high school district will be taken over by the Torrance Unified School District on July 1, 1948. Despite outstanding work by administrators and teachers, no one will say that they will be retained. They have proven their ability and have the loyalty, confidence and respect of the students and of this community. Further upheavals in personnel are unhealthy, unnecessary and uncalled for at this time. These outstanding administrators and teachers should be retained and assured at once of their employment.

3.—Charter Amendment No. 1 would change elections for the Board of Education to a time approximately one month after our city elections. I urge that this amendment be defeated. Vote 'NO!' Besides extra expense, popular interest would not be present to the same degree as when the school election is held at the same time and in as many voting precincts as the city election. There is no doubt but if the election date were changed, a few hundred votes would control. Let's continue to hold the school board elections at the same time as the city elections, thus assuring a maximum of interest and the largest representative popular vote.
