Porters and foot servants of northern India and Tibet have an original way of thanking their masters for payment for services. According to reports they touch their heads to the ground, stick out their tongues and hiss.

You've got to be on the SQUARE if you are going to build... and that's true whether it is a house or a business. Folks who think their customers are suckers don't last long. We know that is true... and that is just one of the many reasons why our policy has always been ON THE SQUARE!
