

THE EMINENT PAUL  
... Master of Legerdemain

### Magician To Appear On Sportsmen Show

"Adventures in Amazement by Paul" will be the entertainment at the Hollywood Riviera Sportsmen's Club at 8 p.m. tonight at the Hollywood Riviera Beach Club. "The Eminent Paul" is a master of legerdemain and a past president of the Pasadena Magicians Guild, a group of assorted magic-makers whose specialties range from sleight-of-hand to full stage illusions in the best Thurston and Blackstone tradition.

As a main feature "Paul" will attempt to read the minds of several people from the audience.

President R. Borman and the planning committee cordially invite all residents of the community to attend.

A short business meeting will be held after the entertainment.

### Presbyterian Church Notes Red Letter Day

Whether from the standpoint of enthusiasm, large crowds, or response to the appeal for support of the budget for the coming year, Sunday was in every sense a red letter day at the Lomita Presbyterian Church. Both the morning and the evening crowds were above the average.

Sunday Dr. B. Johnson Reemtsma will present two themes: "Perils of the Crowded Life" and for the evening, "Just Suppose Jesus Was Right." Music by the Westminster Fellowship youth choir will add to the enjoyment and inspiration of the worshippers.

Sunday evening an additional feature will be an instrumental trio: Mrs. Mimi Blakesley, Duke Blakesley and Don Crum. Their selections include Samson and Delilah and Serenade by Schubert. The public is cordially invited to attend any and all services of this church.

Wednesday evening studies in the Life and Teachings of Jesus are being conducted by the minister.

The church will unite with other churches in the community next Wednesday evening at 7:30 in a Thanksgiving service at the Calvary church corner 250th and Oak streets. Dr. Reemtsma will be the speaker.

### Local Foundry Wins National Safety Award

The National Supply Company here maintained a perfect safety record during June, July and August to earn top ranking among 132 steel foundries participating in the steel casting industry's 1949 national safety contest. It was announced yesterday in Cleveland by F. Kermit Donaldson, executive vice president, Steel Founders' Society of America.

Contributing materially toward achievement of an all-time record low in the industry's cumulative lost-time injury frequency rating, the company tied for first place with 38 other steel foundries competing in four national groupings. Each qualified for the national Society's Highest Honor Safety Award plaques by eliminating all lost-time injuries among plant employees during the three-month period.

The national award, a 13 by 17 inch plaque framed in hardwood and embossed with the company's name, was presented at the Fall Meeting of the Steel Founders' Society, at White Sulphur, W. Va.

### School Board Takes Action on Play Plan

That a joint city-school sponsored recreation program should be undertaken on an around-the-year basis was expressed at a meeting of city officials and members of the Board of Education Tuesday night.

The board passed a resolution favoring the hiring of a recreation director by January 1, 1950, whose duties would be to coordinate the recreational efforts of the city and school district. Superintendent of Schools Dr. J. Henrich Hull recommended the formation of an advisory committee of five members—two selected by the city, two by the school board, and the fifth by means of another method. Whether this would replace the present recreation commission which functions in a similar capacity for the City Council, was not discussed.

The board blushed officially that they were financially embarrassed at the present and could not engage in any extensive program of recreation without putting the education of local students in jeopardy. It was stated that the board now has approximately \$1200 budgeted for recreation.

Dr. Hull recommended that a college trained recreational director be selected through an extensive screening process. Such a director's first duties would be to lay the groundwork for a program that would make more use of present school facilities as well as those of the city and to coordinate the efforts of the two agencies to prevent duplication.

### Increase In Trade Volume Indicated

Increase in volume of trade at Torrance business establishments was indicated in city sales tax figures released last week.

Since the start of the current fiscal year, July 1, until the October 30 tabulation, the city has realized \$17,417.61 from sales tax. Pro-rated on a full year basis the figure is expected to reach in excess of \$53,000. The \$53,000 total would represent a healthy increase over the 1948-49 figure of \$44,925 and the 1947-48 mark of \$40,825.

### SAN JOSE STATE ENROLLS FOUR LOCAL STUDENTS

Enrolled at San Jose State College, the state's oldest publicly-supported college, are four students from Torrance, according to the school's public relations department.

Registered for the fall quarter are: Robert Brown, son of Edwin B. Brown, 2404 Gramercy ave.; Billy Parton, son of Mr. and Mrs. Coy W. Parton, 734 Sartori avenue; Paul Smith Jr., son of Mr. and Mrs. Paul Smith Sr., 2204 Torrance boulevard; Lloyd Warthan Jr., son of Mr. and Mrs. Lloyd C. Warthan Sr. 650 Border avenue.

### Proposed Dump Site Draws Walteria Probe

Aroused by the possibility that their streets may soon be used by dump trucks from virtually the entire bay area, the people of the hills immediately south of the community, according to Paul Slonecker, president of the Walteria Civic Organization, A special fact-finding committee has been appointed, Slonecker indicated, for the purpose of conferring with county officials. Action was motivated by a recent report that the county is considering the possibility of creating a cut-and-cover dump

at a huge excavation created by mining operations on a bluff overlooking Walteria. Although the dump itself would create no problem, passage of trucks to and from the site would become a nuisance and create traffic problems, Slonecker said. Other residents also were concerned by the possibility that a dump might provide a breeding place for flies, mosquitoes and other insects.
