

Group Meeting Place Suggested To Realty Board

Erection of a "Realty Board Building" in a central location which could be used for clubs and civic organizations as a meeting place has been suggested as a project to be undertaken by the Torrance-Lomita Realty Board.

In a letter to C. J. "Paddy" Ryan, president of the Joint Realty Board, Gerald L. Alter, head of the Alter Realty and Insurance Company suggests the board consider the project not as a profit enterprise, but as a civic undertaking.

"This idea should be considered as a service to the community and the Torrance-Lomita Realty Board, if such a project is successfully achieved, would attain an enviable reputation and prestige by helping to develop local community organizations," wrote Alter.

The benefits to the board in sponsoring such a project would be unlimited value of advertising and good will that naturally would be derived. A Realty Board Building would be an asset to the community, Alter claims.

LT. HARRY BURKHOLDER ... Finds A Problem in Japan

Ex-Toastmaster Prexy Writes Of Japan Visit

"Twenty of us rented a bus with three guides, including all expenses of travel, for 30 cents a day," writes Lt. Harry Burkholder, former National Supply Industrial engineer while on a week's tour of Japan.

After being aboard the Aircraft Carrier Bon Homme Richard for 32 out of the last 25 days of the coast of Korea, we finally sent 30 of our Air group officers here (Aso Kankō Hotel)," writes the former president of the Torrance Toastmaster's club.

"We will be here for about a week before going back to Korea waters.

"Very much taken with the beauty of this place but I am even more impressed with the industry of the Japanese people. "Laborers here make about two dollars a month (700-800) while the hotel people here make about \$10 a month plus room and board.

"Certainly difficult for them to compete with Americans with that type of inflation.

"Unless our orders are changed we (our ship) should return late this year—1951."

Writing about the hotel he indicates that Japanese customs pose a bit of a problem for American Navy men.

"The two indoor hot sulphur pools are the favorites here." (Him! You know Japan has the custom of mixed community bathing.) Lt. Burkholder did not explain how the American boys overcame this recreational handicap.
