Get an electric home food freezer now . . .

and have less cleaning up to do!

DO YOU TAKE PRIDE in your home-made pies and pastries, but hate the job of cleaning up after baking? Then being able to serve fresh baked goods every day but only doing the clean up once in a while is certainly a trick to your liking. And exactly that is within your power, when you have an electric home food freezer.

You just set aside a baking day, and then bake for weeks ahead—that's all there is to it. Instead of a pie or cake, mix several—one for the oven, the rest for your food freezer. When

you've done the cleaning up on that one day, you're all through. You have a stock of ready-to-bake pastries on hand, and all you do is take 'em out and bake 'em when you're ready.

That's all there is to it. You're a cook for a day and a queen for weeks or more. You'll find it's not only easier but less expensive to bake this way.

Summer time is the very best time to buy and stock a home freezer. Your dealer has a variety of styles and models including the one that is just right for you. He can show you how food budget savings will pay for it, too—so why wait? See your dealer now!
