### Small Audience Hears TUTmen In Beach Area

An audience of 23 persons, including eight from Hollywood Riviera, heard the three TUT candidates outline their platform for the forthcoming city council race during a meeting held last Friday night in the Riviera Beach Club.

Allison one of the candidates, told the rather scattered audience that he could see "no earthly reason" for not annexing Alondra Park and renaming El Camino College the "Torrance City College."

### Noted Jurist Talks Tonight

Tuesday night the Board of Trustees of the college took a stand against annexation by any city on the grounds that such a move would hamper greatly the future development of the school.

Frank Brennan, chairman of the meeting, refused to admit questions from the floor stating that the meeting was not an open meeting but an organizational meeting. He said he would answer questions regarding the organization providing the queries were from residents of the Hollywood Riviera section only.

The meeting was opened by Frank S. Selover, president of the group, who read a copy of the articles of incorporation.

Ison told the group it was his opinion that the present city council was the poorest council the city had ever had and that three former mayors, J. Hugh Sherfey, William Tolson and Bill Stanger, all agreed with him.

Speaking also were the two other members of the TUT ticket, Victor Benstead and Councilman Nick Draie.

### Noted Jurist Talks Tonight

Judge Ida Mae Adams, Los Angeles Superior Court judge, will address the Waleria PTA tonight at 7:30 o'clock in the school auditorium. Judge Adams will discuss the subject of "The State as a Foster Parent" and also the discipline of children, explaining the responsibility of the state to our children and also the parents' responsibilities to their children.

Mrs. Glen Harcastle, president, will conduct the business portion of the meeting, at which time officers for the coming school year will be elected.

Mothers from 7th grade room will be hostesses for the coffee hour following the meeting. Child care will be provided in the kindergarten building.

Take it from me—you'll like electric drying! One of the nicest things about having an automatic electric clothes dryer is that you're all through fussing with poles, lines and clothespins. Drying clothes indoors is so much faster and easier. What's more, clothes dry better in an electric dryer. The clean and uniform electric heat turns them out soft, fluffy and ready to iron.
