Free Cotton Candy At Von's Opening

Von's Gardena valley market grand opening this week-end will have as one of the main features at its gala 3-day free food show free "candy cotton cones."

A candy cotton machine will be provided in the big tent through the compliments of the Holly Sugar corporation and this delicious confection will be spun from Holly Sugar to provide a sweet treat for Von's market customers.

Grown-ups will equal the kids in line to see these fascinating machines spin this fluffy confection.

Be sure and come in and revive your taste for Cotton Candy popular for so many years at county and state fairs through out the country.

It will be spun from Holly, our featured brand of sugar and will be free to all!

ROLAND (PAT) YOUNG: Standing firmly in back of all Von's meats is Roland (Pat) Young, who also is a firm believer in self-service meat departments.

Meat Department Manager Is Roland Young

Roland "Pat" Young is a firm believer in self-service meat departments. He says, "All of Von's meats are quality-controlled so that we aren't afraid of making a double-your-money back guarantee on every piece of meat we sell."

That means that you must be satisfied or we'll give you double your money back. With self-service meat you can select the cuts or pieces of meat to suit your budget. It's all wrapped right in front of your eyes. Pat started with Von's 14 years ago so naturally he knows exactly the quality standards that Von's insist on.

Grocery Department Von's No. 1 Attraction

Thousands of customers who trade at Von's markets every day have learned that meal planning is simplified by a scouting trip through the grocery department.

In conveniently arranged displays are found more than 4000 regularly stocked grocery items ranging from the staple items found on most kitchen shelves to the most exotic boss-is-coming dinner delicacy.

NATIONAL BRANDS

Nearly all popular nationally advertised brands of food are represented and great care is taken to add new items to stock as soon as they become available. The shopper who runs out of ideas just before time to start dinner can avert disaster by a visit to her neighborhood Von's market. She could select five different items every day for 800 consecutive days and never be forced to duplicate.

Such tremendous variety could result in confusion, were it not for the thought and planning which has gone into each market. Floor space has been utilized to provide utmost convenience for the shopper.

PLANNED CONVENIENCE

Wide, unobstructed aisles eliminate the danger of bumping into merchandise or other shoppers. Aisles are large enough for three shopping carts to pass each other. Easy flow of traffic within the store speeds up shopping time.

MORE BUILDING SEEN

Construction of the new Von's modern new market at Redondo Beach boulevard and Normandie avenue is expected to be followed by additional mercantile construction.

Real estate leaders in the valley point out Gardena and vicinity present a most enticing picture to business concerns of almost every variety... thousands upon thousands of new homes were constructed during the war and post-war years but priorities and material shortages prevented building of most business establishments.

Result of this unusual situation is that new home construction and its attendant increase in population has made Gardena valley one of the best business prospects in the Southland, realty experts declare.
