

Parking Lights Bad To Use in Dusk Driving

For your own safety and protection, don't use your parking lights for driving lights. This safe driving tip is based on accident reports arriving at California Highway Patrol Headquarters telling of collisions caused by driving with only the parking lights burning at dusk or other times when visibility is poor.

"Many drivers have acquired the dangerous habit of relying on parking lights when driving under conditions of fog, rain, or semi-darkness," Patrol Commissioner B. E. Caldwell said.

"The vehicle code is specific in stating that the headlights must be operated on the highway between thirty minutes after sunset and thirty minutes before sunrise and at any other time when a person or vehicle cannot be clearly seen for a distance of at least 200 feet," he explained.

"Parking lights, however, are designed for the purpose of indicating a vehicle parked or standing on the highway outside a business or residence district during times that lights are required and should not be used for driving.

"Adequate headlamps will light the highway for the required distance and also warn other drivers of your approach in ample time to avoid a collision. Motorists who drive with only the parking lights burning deny themselves this advantage," Caldwell added.

Goodwill Board Predicts 1954 Will Set Record

The board of directors of the Goodwill Industries of Long Beach, which covers the Torrance area, announced this week that 1954 would see an estimated \$125,000 in wages paid and 85 persons employed. This is an increase of \$25,000 and 16 people more than in 1953. It was stated by Walter L. Case, director of the local office.

This marked increase is backed by figures from the National Headquarters in Washington, D. C. Based on careful study and estimates, the 1954 goals for all local Goodwill Industries appear to be as follows: Number of persons to be served—21,015; total estimated wage payment, \$14,448,296.

1953 Record Year

A study of the annual report reveals that 1953 was the banner year of the last ten years. The amount paid in wages rose 32 per cent over 1952 and reached a total of \$100,253.46, earned by 183 different workers.
