

Riviera Sportsmen to Build Clubhouse

By MARY and JACK WEBB
 Jim Greer, 142 Via Alameda, vice-president of the Riviera Sportsmen, reports a record turnout of hungry Rivieraers and their families attended the hamburger fry at El Retiro Park last Sunday where for one buck each family could eat all they could hold. Big time was had by all until the food ran out, we hear.

Also from the Sportsmen, it's reported that they'll soon be acquiring property and building their own clubhouse. Their meeting at Riviera Beach Club last Thursday brought this out, when discussion was held on the proposed site for such building. Tentative plans call for the erection of a building approximately 30 by 180 containing a stage, assembly hall, and small offices with mail boxes which could be used by other community groups in this Riviera district. Ray Borman and Jim Greer, co-chairmen of the project, indicated plans to go forward with the building program as soon as a suitable site is located and purchased. Councilman candidates Isen and Hill

spoke before the assemblage, presenting their platforms in brief. Candidates Blount and White also spoke. Present as guests of the Sportsmen were Homeowner Association representatives W. A. Garabrant and Henry Miller. Also discussed during the business meeting was the erection and maintenance of "Slow-Children Playing" signs through lower Riviera.

Seems only appropriate to report, along with the other news of this week, that we Webbs had young Marianne Constance, our latest edition, baptized last Sunday at St. James Church in Redondo Beach. Our six-week-old feminine prodigy took the ceremony quite well, showing an easy and casual friendliness throughout. After 2 p.m., we five Webbs and friends repaired to our Calle de Andalucía residence, where promptly at 3, the doors were swung wide for open house. Over 50 relatives, neighbors and friends dropped by to toast the young lady, nibble at the snack table and banty words with us. It seems, as we review it all,

that everyone seemed to have a dilly good time, enjoying the to-do as much as we enjoyed their company.

A rather unusual and distinguished gathering took place on Saturday, March 28 at the home of Mrs. S. A. Broughton, 106 Via Sevilla. For on that date, Mrs. Broughton entertained members of the Society of Women Engineers. At dinner with her that evening were Mrs. Beatrice Hicks, National past-president of the Society and Miss DeLoris Kiester, current vice-chairman of the Los Angeles District of the Society of Women Engineers. Mrs. Hicks had just returned from a six-weeks business trip to South America, and stopped by to visit Mrs. Broughton en route to her home in the East. Riviera Mrs. Broughton, by the way, is a chemical engineer and corresponding secretary for the Society's Los Angeles District. She also edits the Society's six-page monthly news bulletin, "The local District meets every third Tuesday," she says, and any women engineers within eye view of this column are most cordially invited to join the Society. A phone call to Mrs. Broughton at FR 5-4182, will bring further information concerning the Society and its functions. Mrs. Broughton, we'd judge, is fully equipped to answer any and all questions concerning the profession; she holds a bachelor's and a master's in her chosen field.

Mrs. Henry Graef, 115 Via los Miradores, in her capacity as Riviera chairman of the Needlework Guild, issues a call for volunteers to organized new groups for the Guild or to help individually. Called "the charity to help all charities," the Guild makes or purchases garments to donate to many other worthwhile charity organizations in the Los Angeles and South Bay areas. Mrs. Graef points out that groups may meet for monthly sewing or knitting or may hold monthly bridge parties to contribute financially to the Needlework Guild. Three such groups in Riviera and others throughout the Palos Verdes peninsula are already busy on like projects. Anyone interested in this work may call Mrs. Graef at FRontier 5-3404 for further information or instructions.

Home after a year and a half absence from Riviera are Mr. and Mrs. Richard Connell, 233 Calle de Madrid and their two sons, Charles 15 and Ricky 12. They've been up in Lassen County, at Westwood, Calif., where Mr. Connell has been managing the Dunlap store there. Recently he was transferred south and upon assuming his new duties managing the chain's store in Gardena, they took up residence at their old homestead here.

The Jack Veltmans, who had been renting the Connell home, have moved to Seaside Ranchos.

Visiting Mr. and Mrs. Donald Beaver, 221 Via los Miradores, are his parents, Dr. and Mrs. J. L. Beaver of Valley Forge, Pa. Dr. and Mrs. Beaver arrived from the east last Wednesday, and after their visit here, will journey to San Francisco to visit with other members of their family.

Born to Mr. and Mrs. Arthur J. MacKellar, 228 Via los Miradores, last Feb. 4, at San Pedro Hospital, was a 7 lb., 6 oz. son whom they have named Scott Allen. Maternal grandparents are Mr. and Mrs. H. A. Klopp of Grand Island, N. Y., while paternal grandparents are Mr. and Mrs. A. A. Camenson of Long Beach, Calif.

And to Mr. and Mrs. Roy Strie-

gel, 408 Calle Mayor, on March 24, at Torrance Memorial Hospital was born a 7 lb., 3 oz. daughter whom they have named Diane Marie. She joins one brother, James Patrick, 2 Grandparents are Mr. and Mrs. F. L. Rafferty of San Diego and L. M. Striegel of Los Angeles. The father is a Los Angeles City school teacher.

Into their new home at 809 Calle Miramar, have moved old-timer Riverians Mr. and Mrs. Ralph R. Richardson and son Billy, 12. After four years of sampling and enjoying this Riviera living at their former residence, 249 Calle de Madrid, the Richardsons built and now occupy their brand new home at the Miramar address. Mr. Richardson is a construction engineer by profession.

Mrs. Jack Dunn, 404 Calle Mayor, has returned home after an appendix operation at Hawthorne Hospital last week. Welcoming her home happily were hubby Jack and daughter Mary Ann, 7 1/2 months.

Baptized at St. James Church last Sunday was young Leslie Vale Crisfield, 8 weeks, daughter of Mr. and Mrs. Lloyd Crisfield, 352 Via Colusa. Her godparents were Mrs. Crisfield's brother, Philip Baxter of Sault Ste. Marie, Mich., and Mrs.

Virginia Roemer of West Los Angeles. George Pope of Palos Verdes stood in proxy for Mr. Baxter. Following the baptism, a family gathering of three sisters and other relatives celebrated with a small dinner party at the Crisfields' home. Highlight of the dinner was a large white cake with the name "Leslie Vale" atop.

According to City Ordinance No. 80, a franchise granted the Western Sheet Glass Co., allowing it to erect a portion of a factory building over a portion of Border Ave. lying east of the present (then) curb line and extending 178 feet north from a line 32 feet southerly from the north line of 222nd St., will expire on the last day of April, 1964.

Our Thanks to You!

WE WANT TO THANK ALL THE WONDERFUL PEOPLE OF TORRANCE FOR THEIR GREAT CONCERN AND PATRONAGE DURING OUR GRAND OPENING LAST WEEK! HERE ARE THE WINNERS OF THE DRAWING THAT TOOK PLACE DURING OUR OPENING:

- | | |
|--|---|
| 1st PRIZE
Max H. Core
3319 Dalemead St.
Torrance | 4th PRIZE
A. S. Thompson
1418 Engracia Ave.
Torrance |
| 2nd PRIZE
M. E. Rugraff
1869 W. 261st St.
Lomita | 5th PRIZE
Elvie Duben
1812 1/2 Cabrillo Ave.
Torrance |
| 3rd PRIZE
B. T. Whitney Jr.
1401 Sartori
Torrance | 6th PRIZE
Shirley Lancaster
2151 S. Figueroa
Torrance |
| 7th PRIZE
Norman Adams
1639 1/2 Cabrillo Ave.

Les King says It's a Fact

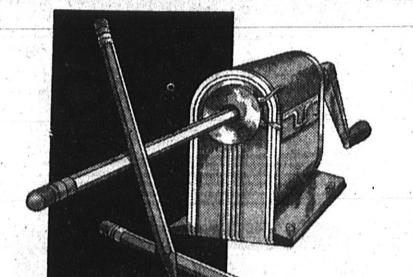

OUR HEIGHT IN THE MORNING IS NOT THE SAME AS AT NIGHT

NOT ALL STONES SINK IN WATER

In the Congo Caves of South Africa are found limestones that can float. A body will float if the weight of the water it displaces when totally emerged is heavier than the weight of the body itself. These limestones are of this category. I. Article by Thomas W. Phelps—"Popular Science Monthly", July, 1928.

Measure the peace of mind insurance brings plus the security. Then see us for the right amount of fire insurance and automobile insurance. This week is a fine time to do it.
