**Passing Law Told by CHP**

Do you know the school bus passing law?

Review of accident reports reaching California Highway Patrol Headquarters indicates that many drivers apparently do not know the requirements regarding school buses.

"The law provides that motorists must stop for school buses when the red lights are flashing. This is true, regardless of the direction of approach. After stopping, drivers must remain standing until the red lights cease flashing," explained Patrol Commissioner B. R. Caldwell.

"The only exceptions which permit motorists to proceed without stopping for these flashing lights occur when the bus is on the opposite side of a divided highway, or when the bus is stopped at an intersection controlled by a signal or a traffic officer," he added.

Caldwell cautioned against stopping for school buses when the lights are not flashing, pointing out that frequently such stops are not expected by other drivers. As a result, confusion arises and serious multiple car collisions sometime occur.

"Because of the unpredictable actions of youngsters extra caution is every motorist's responsibility whenever near a school bus."
