Builder Announces Plans For Triplex Development

Charles R. Laraway, Inglewood builder, has just announced the purchase of all the remaining lots in the Community Airport tract lying on the south side of Redondo Beach Blvd. between Hawthorne and Prairie Aves.

Plans have been completed and bids are being taken for the immediate construction of triplex income units which will be offered for sale at \$22,500 each, revealed Laraway, who also stated that it is his intention to sub-contract the work and materials with as many Torrance subcontractors and supply houses as possible. Each triplex will embody two two-bedrooms and one one-bedroom apartments equipped with garbage disposals and automatic dishwashers, and will include individual garages and private patios for each tenant.

Huge Investment
 Laraway said the project would represent an investment of more than half a million dollars when completed, and would be located a few blocks from the recently announced \$60,000,000 shopping center to be built at the southwest corner of Hawthorne Ave. and Redondo Beach Blvd.

"It is my opinion," Laraway said "that the city of Torrance, with its new major boulevard approaches and ever-expanding diversified industries, is bound to become the central business and income residential center for all of the southwest and Bay cities. This accounts for my acquisition of the lots in this location and for my new housing project and the expansion of my operations to the city of Torrance."
