

Buzz Session on Reading Seaside Highlight Thursday

A buzz session on reading, conducted by Principal Walter Rebold, will feature the first general meeting of Seaside PTA, to be held next Thursday, Oct. 8, 7:30 p.m., in the school auditorium.

Discussion will follow a demonstration of a reading accelerator by Jeff Olsen, eighth grade instructor at the school. Musical numbers by students also will highlight the evening.

Plans for the meeting were made last Thursday by members of the executive board, who also ratified two new chairmen, Mrs. A. Kistling, health and dental health, and Mrs. S. Belgis, safety. Yearly program approved by the leaders will include a "Dad's Night" on Nov. 12, with a youth forum under the direction of the citizenship chairman to highlight the evening slate.

December session will feature a Christmas program in each room, while on Jan. 14, a guest panel composed of exchange students will be presented.

In February, the association will join with other PTAs in Founders Day activities and the awarding of an honorary life membership. March highlight will be a fashion show, shop exhibit, and election of officers;

April will feature a Health Fair; and May will wind up the year with installation of officers and convention reports.

New Psych Courses Set

Beginning next Tuesday, Oct. 6, a depth psychology class will be held at the Compton Counseling Service, 509 E. Compton Blvd., Room 212, Compton, each Tuesday evening from 7:30 to 9:30 o'clock.

Sponsored by the Service, the course will assist the individual to find his relationship to himself and others through a study of the interplay of actions and reactions. Leon Prudence, press chairman, said. The sessions, to continue for 40 weeks, will include dream interpretation and discussion periods.

Edith E. Stauffer, counselor on the staff, will be the instructor.

Mrs. Stauffer also will cooperate with Gladys Clouse in presenting a self development class beginning Thursday, Oct. 8, at the service, 7:30 to 9:30 p.m. Purpose of this class, entitled "Developing Ourselves," is to assist the individual in developing his potentials.

Course material will include tests, setting of goals, relaxation exercises, required reading, budget help, and group therapy.

In order to enroll, a participant must have had instruction in one or more other Service classes, "Dynamics of the Whole Personality," "About Your Inner Self," or "Depth Psychology."

A BOY'S GRANDPA

Next to a boy's father comes grandpa. a father says, "Must." Grandpa says, "Let me show you." The elder man sees his son and does for his son what he should have done for the parent. Too busy making a living for his son, grandpa now indulges the boy's curiosity of all the wonders of life around him.

He shows him how to make a whistle from a willow limb, make friends with birds, demonstrates that animals quickly respond to love and kindness. He shows the boy how to balance on a pair of stilts, construct a sling shot and how to use it. They watch bees at work, their function as pollution agents, how a mole worms labor to aerate and fertilize the soil. He shows him a lamp wick, how it pulls up oil by capillary attraction, points to a tree and proves sap goes to every branch and leaf the same way. Grandpa has time and uses it to teach that boy the wonders of a perfect world.

A boy's grandpa should teach us, all of us, how to live, to be happy with what we have.
