

DRIVE CAREFULLY

There is only one way to drive . . . that is carefully . . . with a sharp eye out for children at their play.

On-the-go boys and girls don't believe in signs. You must be ever-alert to "give the kids a break!"

DRIVE CAREFULLY

All streets are play streets, now that school's out. Be ready to stop quick.

Not a care in the world have girls and boys at play . . . they dash into the streets without thought of danger. Drive with care . . . for their safety's sake.

DRIVE CAREFULLY

Caution is something you must use plenty of . . . because children use so little. Drive cautiously and give them a chance to grow up.

Lights mean little to a little fellow. Be a big fellow and watch out for him . . . 'til he's big enough to watch out for himself.
