

Chamber Board Names Mill; Delay on Tax Plans Asked

W. Mill, division controller and assistant secretary of the National Supply Co., was named to the board of directors of the Torrance Chamber of Commerce at a Monday afternoon meeting.

The vacancy caused by the recent resignation of Reed H. Parkin, of Doak Aircraft Co., Inc. Parkin's resignation was caused by pressing business. Announcement of this action was made by Chamber President Paul D. Loranger.

Committee Named

Henry W. Creeger, chairman of the Chamber's Industrial Committee announces the following men have accepted appointments to that group: C. C. "Red" Morgan, Columbia Geneva Steel, John Spalding, National Supply Co.; Robert I. Pomeroy Jr., General Petroleum; Dean L. Sears, Bank of America, and King Williams, Torrance Herald. Additional members will be added to his committee.

The purpose of this committee, announces a revitalized program, will be to work on programs to attract new industries into Torrance and be of service to existing industries.

Parking Study Set

Dean L. Sears, chairman of the Chamber's parking committee, announces a revitalized program for that group. In the near future, this committee will meet with city officials and

legal counsel retained by the City to handle creation of a parking assessment district.

Other members now serving on the committee with Sears are Sam Levy, Arthur O. Otsea, and C. T. Rippey.

Trip Authorized

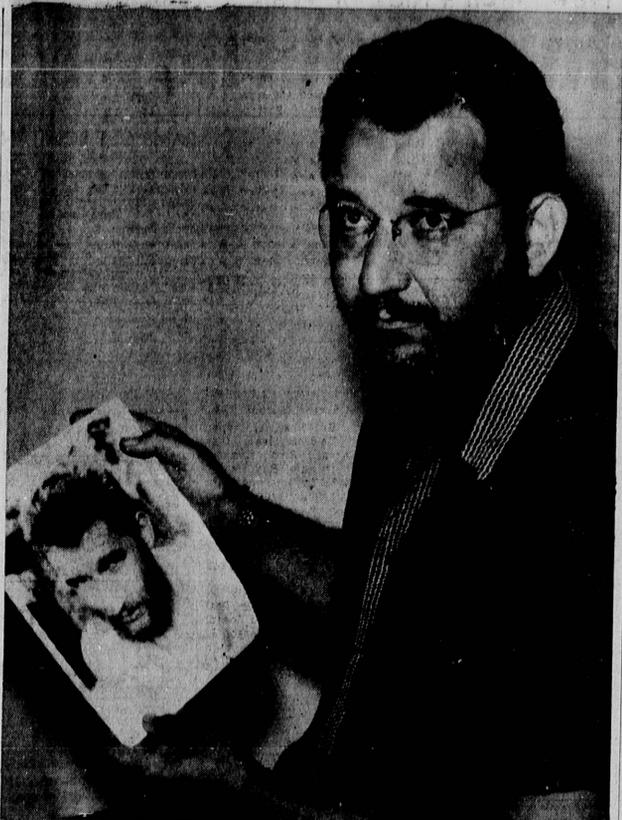

Chamber Manager Tom V. Watson was authorized to attend the Western Institute for Chamber of Commerce executives at Stanford University for the week of July 17 to 23. Classes from 8:30 a.m. until 4 p.m. discuss all phases of Chamber operations.

Formal action was taken Monday afternoon at the Chamber board meeting to request the City Council to defer action on Ordinance 753 which would impose an excise tax on the use of the consumption of tangible personal property.

Reason for this action was that additional time was needed to study the proposed Ordinance and also to get a true copy of the Assembly Bill 3111 recently signed by the Governor which pertains to uniform local sales and use tax.

It was emphasized in the communication to the City that this request does not infer that the Chamber opposes Ordinance 753, but simply requests time to make a thorough study of that ordinance and allied tax bills.

The ordinance was adopted nevertheless by the Council Tuesday night.

MEMORIES STIRRED . . . Frank Frohnhoeffer, of 1116 Hickory Ave., has a beard again—this time to go along with the western motif of the Torrance Community Fair which opened last night. The picture he holds—made on Bougainville in 1944—is also Frank Frohnhoeffer . . . with a beard.

The Stork Story

Bernard (Bim) Clayton, Jr., has a new brother in the person of David Bruce, who has taken priority in attention at the 2025 Border St., home of Mr. and Mrs. Bernard M. Clayton. Their second son arrived May 16 at Torrance Memorial hospital and his birth was clocked at 5 p.m. and weighed 8 lb. 8 oz. Grandparents are Mr. and Mrs. James M. Clayton of Hawthorne and Mr. and Mrs. Ward F. Thompson of Bear Lake, Mich.

Third child for Mr. and Mrs. William Cave, of 21135 S. Beards Ave., is Thomas Alfred, who arrived May 13 at 4 p.m. at Torrance Memorial hospital. At home he joins sister, Loretta, 13, and brother, William L. 11. The 7 lb. 4 1/2 oz. boy is grandson to Mr. and Mrs. Harry Cline of Cincinnati, Ohio; William John Felix of Cleveland, Ohio.

Wanda Susan is the fourth member of the small fry department at the home of Mr. and Mrs. Edw. M. Brown of Euclid. She made a 7:53 entrance on May 14, at Torrance Memorial hospital.

The 6 lb. 1 oz. miss is receiving attention from sisters, Lynda Louise, 10; Esther Marie, 9, and Edward Michael 4. Grandparents are Mr. and Mrs. H. C. Brown of Emporia, Kansas and Mrs. C. S. Mason of Sunland, Calif.

Mr. and Mrs. T. S. O'Hara of 1710 W. 245 St., Lomita, welcomed their first daughter, Wanda Kaye on May 15 at 9:43 p.m. at Torrance Memorial hospital. The 6 lb. 10 oz. girl is making the acquaintance of brothers, Thomas Jr., 2 years 10 months and Ronald Gene, 1 year, 5 months. Grandparents are Mr. and Mrs. S. O'Hara of Walleria; Mr. and Mrs. J. Fujimoto of Watsonville, Calif.

Second son and third child for Mr. and Mrs. Robert A. Goetz of 5029 Milne Drive, Torrance is Donald Donovan who joined the family at 5:01 p.m. May 19 at Torrance Memorial hospital. Tipping the scales at 6 lb. 13 1/2 oz., he is being greeted by brother, R. Bruce and sister, Karen. Grandparents are Mr. and Mrs. G. A. Donovan of Torrance.

... Rabies Hearing

(Continued from Page 1)

harm to inoculated animals.

Eileen Goetz, 3029 Milne, V. C. Prith, 22228 Warmside Ave., and Jess Lockhart, 2837 Sonoma St., also spoke against the law.

Mrs. Estelle Taylor protested that "our side has not been given in the press. That is why the people are brainwashed and did not show up at this meeting against the proposal." She said that where inoculations have been made the law, the incidence of rabies has increased. She asserted that rabies shots are "definitely harmful." She said a label on a box admitted that the shots are 5 per cent fatal. She expressed the view that "this is a racket promoted by the laboratories."

Mrs. Taylor claimed that if the law is passed it will still be necessary to have bitten dogs quarantined.

A man who identified himself as Major Abrams of Sherman Oaks denied the statement that vaccine was used in Japan.

Mrs. Rita Del Mar, legislative representative of Humane Affiliates, said a similar measure had been defeated in Glendale and San Gabriel, and that such a law had not, as claimed, been passed in Whittier.

She read a statement of a doctor arguing that compulsory inoculations would "open the door" to socialized medicine. She said shots would lead to a false sense of security.

In the rebuttal period Dr. Kurt T. Shery of Torrance cited figures on recent rabies treat-

ments, and stated that a five-year-old Torrance girl had died on June 26, 1939, from the disease. The supreme court of Ohio, Shery said, has ruled on the validity of the law, declaring it "equitable and necessary."

FLAG COMBINATION

The national flag of Great Britain is a symmetrical pattern of the crosses of St. Andrew, St. George and St. Patrick.

BULB USERS

Americans use about 12 electric light bulbs per capita every year.

L if you live in Torrance, why not WORK in Torrance?

JOB OPPORTUNITIES:

MILLING MACHINE OPERATORS: Make own set-ups — prefer job-shop experience. At least 5 years recent aircraft experience. Openings at present to be on swing shift.

AIRCRAFT ASSEMBLERS "A": Several years of increasing production in this area on missiles and aircraft demands top people to produce first-class products.

EXTRUSION HAND FORMERS "A" AND TRAINEE: Highly stressed components for the F-100 and B-52 require specialized skills. Willing to train applicants into this specialized, well paid classification.

AIRCRAFT FABRICATORS "A": Can you make set-ups for saws, punch presses, routers, mills and drill press for detail fabrication of vital aircraft components? Ability to read blueprints essential, plus a willingness to learn.

You can learn greater skills and find greater opportunities with a growing company. Call for evening appointments,

Telephone: Days — FAirfax 8-6530
NEvada 6-5708
Nights — FAirfax 8-6532

Personnel Office is open til 9:00 P.M. weekdays and from 10:00 A.M. 'til 2:00 P.M. on Saturdays.

The "people of Union Carbide" will soon include the men and women who will operate the Carbide and Carbon Chemicals Company plant now under construction.

... why they spell a better life for you

A CENTURY AGO, pioneering scientists learned to take apart water, air, and earth and put them together again . . . in completely different arrangements.

THE RESULT, very often, was a synthetic—a brand new material that didn't exist in nature, or a more abundant, more useful version of a nature-made product. Thus, through the years, synthetic has come to mean "man-made and well-made."

Science has developed nearly half a million synthetic materials since that time, and millions more are possible.

WHERE DO SYNTHETICS fit into your life? Nearly everywhere! The aspirin you take for a headache, the life-saving sulfa drugs and scores of other modern medicines are synthetics. So are today's remarkable plastics, new textiles, and many paints, dyes, adhesives, and valuable chemicals.

AN IMPORTANT PART of the work of the people of Union Carbide is discovering and producing synthetic materials that serve you and industry. From natural gas and oil, alone, they produce nearly 400 chemicals. Among them are chemicals that are vital to everything from synthetic rubber to cosmetics . . . and to the variety of plastics and resins made by UCC, which are used in nearly every home and industry today.
