Tartar Teen Talk

Results of this semester's elections were announced last Friday night.

Don Kelly is the new ASB president; vice president is David Shinoda.

Girls' and boys' league presidents are Marilyn Moss and Ben Bough.

The class presidents are Peggy Sprout, senior; Jim Weyant, junior; Victor Masaki, sophomore, and for freshman there is a run off.

The Varsity Club initiates went through the hills of 29 Palms and all of the other initiation with no trouble at all. The boys who went to 29 Palms wrote a fabulous song.

Our basketball teams are really doing terrifically this year. Our Jayvees is undefeated in Bay League competition and our varsity has been defeated only by Santa Monica. The spirit at the games has really been wonderful so let's keep it up and have everybody out for tomorrow night's game with Mira Costa.

Wild revelry and rejoicing swept Tartarville Friday night after the winners of the election had been announced. Tartars having parties to celebrate victory or bewail defeat, were Jim Weyant and Bob Brooks. Howard Smith, Jim Weyant, Ollie Lessin, and Bob Brooks had a private party reaching far into the next morning.

CAUTION! FAMILY AT HOME

Is your home as safe as you would like it to be? According to the National Safety Council, for each injury that occurs at work more than two injuries are caused by accidents at home. We can make our homes safer to live in by following recommended safety practices such as these:

- Do not touch an electric appliance or switch while you are standing in water.
- Keep poisons and matches beyond reach of children.
- Use a solidly-built ladder or step-stool of sufficient height to reach high places.
- Keep gas heaters in good repair.
- Do not leave young children in the house alone.

Teach your children safety at an early age. Always be on guard against hazards. Learn the hazards in your home and eliminate them. Make your home at least as safe as your place of work.

- Keep toys, mops, and other articles off stairways.
- Apply non-skid backing to scatter rugs or tack them to the floor.
- Replace worn electric cords and defective electrical equipment.
