

Local Resident New Manager of Safeway

Howard C. Quiggle, a Torrance resident and a veteran of more than 19 years with Safeway Stores, has been named manager of the new Safeway Store which will open later this month on Carson St. at Western Ave.

HOWARD C. QUIGGLE
... To Open New Safeway

Quiggle, who lives with his wife and son, Dexter, at 2614 Cabrillo Ave., has been manager of the Safeway Store at Sartori and El Prado for the past year. He is a native of Los Angeles.

At Other Stores
Before coming to Torrance last year, the new manager worked his way up in the Safeway chain in Montebello and East Los Angeles. His appointment to the managership of the newly completed market here was announced here yesterday by Charles J. Millener, district manager for the large food stores chain.

First job in the new assignment for Quiggle will be to interview employment prospects at the new market, he said. He will begin his interviews Saturday. He expects to employ 40 or 50 persons as checkers, meat wrappers, and box boys, he said.

Air Force Vet
Quiggle is a veteran of World War II when he served in the Air Force. He was recalled for service in Korea.

The new Carson and Western store, one of the largest Safeway stores in the Southland, will be offering shoppers of the area the finest marketing facilities available today, Quiggle said.

SALMON HARVEST
Sockeye salmon appear in unusually great numbers every four years and Pacific coast canneries make special preparations to handle and pack the anticipated "bumper" crop.

Creative Living Workshop Plans Summer Classes

"Parents Are People, Too" is the title of one of a series of free lectures to be presented as a community service during the summer by the Workshop of Creative Living in Waltham.

Mrs. Dorothy L. Law, consultant in family life education, will be the lecturer and other themes will include: "Your Child Needs You," "Constructive Discipline," "Sex Education," "Fun With Children" and "Building Your Child's Future." Question and discussion periods will be held after each lecture.

"Families Can Be Fun," the name of the series, will be held at the Workshop building on Wednesday evenings at 8, beginning July 10. The lectures were designed to create a better understanding of parent-child relationships, and is for parents and all others interested in the growth and development of children. More information may be had by visiting the Workshop, 24242 Hawthorne Ave.

Future Plans
The Workshop offers these lectures free and plans to make such a series an annual summer event as part of an adult education program.

Children's Workshop, for pre-school children, is another part of the Workshop's regular program and there is the summer program for the 6 to 9-year group which this summer holds an Indian theme. Both of the children's sessions are taught by Mrs. Helen Spencer.

Nursery Program
The Children's Workshop is a year-round nursery school program which includes creative experience, and in the summer, a large wading pool and outdoor activities are added. Children's Workshop meets daily from 9:30 to 11:30 a.m. and is available two, three or five days a week.

Pottery, basketry and costume making are some of the crafts offered on the older summer program children who will come to the Workshop Monday, Tuesday and Wednesday from 1 to 3 in the afternoon. Projects are planned so that each participant may gain feelings of accomplishment and self-worth.

Garden Chatter

By LOBBING BIGELOW

Fleas and Flies. Certain districts nearby have heavy infestations of both these pests each year during the summer months. In many instances use of the patio or garden is limited when they appear in quantity. Flies can be controlled satis-

factorily, by many means but perhaps the best method is by using a concentration of malathion or malathion spray. A 50 per cent concentrate should be purchased if possible and five tablespoons full used to each gallon of water. The addition of sugar to this spray has pro-

longed the residual action of the chemical. Use seven or eight tablespoons full of sugar to each gallon of the solution.

Do not use this spray solution for fly control indoors, but do spray it on walls, fences, near trash bins, garbage cans, incinerators, and any other area where flies congregate. Be sure to wet all surfaces thoroughly.

In the case of fleas, malathion may be used, or if you prefer a strong concentration

of chlordane is also effective. In using either of these chemicals, other insects will also be controlled.

Several companies now include strong concentrations of malathion and chlordane in one bottle but for best fly control use the malathion and sugar without the chlordane.

Symptoms of zinc deficiency in citrus trees in this area are light yellow areas in the leaves between the lateral veins, the production of small elongated,

narrow upright leaves with shortened internodes and a bunched appearance with a pronounced dieback of twigs. If the trouble is unchecked, trees become filled with dead wood, the lack of foliage is noticeable, and eventually the trees quit bearing.

Control is relatively simple. Spray the trees with a zinc solution at any time of the year

with perhaps the most preferred time before Spring or Fall growth. The spray should be in a light mist and the foliage covered.

Use one ounce of zinc sulphate plus 1/2 ounce hydrated lime per gallon of water. Be certain in any spraying that the plants that receive the spray residue are turgid and not suffering from lack of an irrigation.

SAFEWAY

Imagine! Barbecue Steaks for only 49¢ a pound!

BAR-B-CHUCK*

How to marinate chuck steaks for added flavor, tenderness
2 1/2 to 3-lbs. of meat 1 tsp. rosemary
1/2 cup salad oil 1/2 tsp. basil
1/2 cup chopped onion 1/2 tsp. pepper
1/2 cup vinegar 1 or 2 cloves garlic, crushed
1 teaspoon salt
Combine all ingredients, mix well and pour over steak. Let stand over night or at least 3 hours. Turn, baste with marinade and broil 10 to 15 minutes. Broil steaks 4 to 5 inches from heat for 15 minutes. minutes more. Or cook on grill over hot coals to desired doneness. Basting frequently with remaining marinade. Tenderizer used before marinating further improves meat.
